## Four Balloons Drop Out of Big Race

### NINE BAGS CONTINUE IN AIR

Daring Pilots Forced to  
Leap For Lives As Gas  
Valve Breaks

### CRAFTS DRIFTING EAST OVER OHIO

Akron Flyers Land Rather  
Than Take Chance In  
Crossing Lake

(By United Press Leased Wire)

INDIANAPOLIS, Ind., July 5.—

Four entrants in the national balloon race were eliminated by noon today, according to press dispatches and messages received by the Indianapolis chamber of commerce.

Nine balloons were still afloat or landed and not yet reported to headquarters of the race here.

Ralph Upson, pilot of the City of Detroit, was forced down at Wapakoneta, Ohio, this morning, with a split seam in his bag.

The Goodyear No. 2 came down two miles north of Fremont, Ohio, at 11 a. m. today.

At a height of about 10,000 feet Pilot Jack Boettner and his aide, Jack Nolton, both of Akron, discovered their balloon was falling. They were headed for the open Lake Erie and rather than to try to fly across, they brought the bag down.

After the gas valve in their balloon failed to work and ballast was exhausted. Roy S. Donaldson, pilot of Springfield, Ill., and his assistant, P. A. Erlick, leaped for their lives, eight miles north of Bryan, Ohio, at 7:50 this morning.

The balloon, relieved of its human cargo, shot upwards and disappeared. The balloon was within fifteen feet of the ground when the men leaped.

While high over this city, 50 miles west of Toledo, a few minutes before, a note calling for ballast and assistance was thrown from the balloon.

"Valves won't work and out of ballast. Need assistance to get ballast," was the text of the note.

Lieutenant Robert S. Olmstead of Washington, was sighted over Custer, Ohio, early today, according to a message received by the Indianapolis chamber of commerce.

He was flying at an altitude of about 1,000 feet and was drifting toward Bowling Green, Ohio, the message said.

### Seek Electricity In Beds of Brown Coal

(By United Press Leased Wire)

LONG BEACH, Calif., July 5.—

Police today were seeking an unidentified Mexican who shot and killed George W. Decar, shooting gallery concessionaire, with one of his own revolver.

Decar had told friends that he had had trouble with a Mexican.

Schoolhouse Goes On  
Joy Ride When Hotel  
Firm Buys Old Site

It is taking one month and will cost \$50,000 to raise and move this 25,000-ton schoolhouse a distance of 500 feet at Hammond, Ind. On the old site will be erected a million-dollar hotel and bank building. The moving contract stipulated that not one brick must be cracked, and to guarantee fulfillment, movers put up a \$100,000 bond.

### REPORT MEXICO BOWS TO U. S. IN OIL ROW

(By United Press Leased Wire)

WASHINGTON, July 5.—Ameri-

can and Mexican commissioners,

meeting in the "recognition con-

ference" at Mexico City, have

reached an agreement in principle

for settlement of the troublesome

controversy over the elimination

of American oil properties from

confiscation, according to advice

reaching authoritative Mexican

creatives here today.

The figure now is \$414,403,251;

251, divided as follows: Muni-

cipal, \$191,096,236; county, \$147,

342,565; state, \$75,964,500.

The total is four per cent of

the total wealth of the state,

according to Riley.

"It should arrest the atten-

tion of every thoughtful citi-

zen," he says.

### CONTROLLER SHOWS DEBT IN BIG GAIN

State, Municipal and County  
Bonds Total \$414,403,251;  
Riley Issues Warning.

SACRAMENTO, July 5.—  
Bonded indebtedness of state,  
county and municipal govern-

ments has increased more than  
30 per cent in the last fiscal

year, State Controller Ray

Riley announced today.

The figure now is \$414,403,

251, divided as follows: Muni-

cipal, \$191,096,236; county, \$147,

342,565; state, \$75,964,500.

The total is four per cent of

the total wealth of the state,

according to Riley.

"It should arrest the atten-

tion of every thoughtful citi-

zen," he says.

### FOUR OIL MEN PLEAD GUILTY TO FRAUDS

(By United Press Leased Wire)

FORT WORTH, Tex., July 5.—

Four more Texas oil men

pleaded guilty today to charges

of using the mails to defraud, in

connection with stock promotions,

when they appeared in federal

court here.

The men are Colonel B. M.

Hatfield, Benjamin C. Hatcher, E.

H. Smith and C. D. Spann.

Hatfield and Hatcher were

each sentenced to one year, and

one day in federal prison, and

Spann and Smith were fined \$500

each.

Hatfield and his associates

were promoters of the Texas-

Mexico drilling syndicate.

### COURT RULES DEATH BY GAS NOT CRUEL

(By United Press Leased Wire)

CARSON, Nev., July 5.—The Na-

vada state supreme court today de-

nied a rehearing of the case involv-

ing the execution of Hughie Fing,

and Gee Jon, convicted Chinese

murderers, condemned to die in a

lethal gas chamber.

In its decision, the court reiterated

its previous decision that death

by lethal gas is not cruel punishment.

Attorneys for the condemned

Chinese and for opponents of the

lethal gas method of executing

prisoners condemned to death will

appeal to the United States su-

preme court, it was learned.

### 30 Bullets

ATLANTA, Ga., July 5.—Charg-

ing that "prohibition is failing in Georgia," Representative Craig Arnold introduced a resolution

for repeal of the state enforcement law in the Georgia general assembly today. The bill was

immediately referred to the house temperance committee. Arnold's

action is the first attack on the dry

laws in the "solid south."

today, maximum, 86, minimum, 56.

## Deaths

WALL—In this city, July 5, 1923, Mrs.  
Mary J. Wall, 31. Funeral services will be held  
Saturday, July 7, at 10 a. m. at Smith  
and Tuthill chapel, with the Rev.  
Otto S. Rau officiating. Burial  
in Pechican cemetery.

Mrs. Wall was a sister of Mrs.  
J. S. Runyon, 416 South Birch street,  
and had made her home here for the  
past eight years.

Stated meet-  
ing Santa Ana  
Lodge No. 241,

Montague of  
Fullerton will  
give us an address on The Making  
of a Master Mason. Let's have a  
good attendance.

CHAS. F. MITCHELL, Master.

CRONKHITE KILLING  
CASE INQUIRY ENDS

WASHINGTON, July 5.—The  
Federal government has thrown  
up its hands in the case of Maj.  
Alexander P. Cronkhite, who was  
killed under mysterious circum-  
stances at Camp Lewis, Wash., in  
1918, and will prosecute the mat-  
ter no further.

This means that if the whole  
truth of this tragic case is ever  
revealed to the public it probably  
will be through a Congressional  
inquiry. Friends of Major-Gen. Adel-  
bert Cronkhite, U. S. A., whose re-  
tirement from active army service  
was ordered when he insisted upon  
time to make an investigation  
of his boy's death, will bring the  
case before Congress this winter,  
it is learned.

Meantime Sergt. Robert Pothier,  
who has confessed on three sepa-  
rate occasions that he killed his  
superior officer, each confession  
differing widely as to what hap-  
pened, will be released from cus-  
tody in Providence, R. I., probably  
the end of this week. Capt. Rob-  
ert Rosenbluth of New York, the  
only other man present at the time  
Maj. Cronkhite was killed, already  
has been given his liberty under  
bond and probably will be dis-  
charged without bail within a  
short time.

Six states produce 48 per cent of  
the entire corn crop.

The thermos bottle was invented  
by Sir John Dewar.

In 1920 there was 6,448,343 farms  
in the United States.

## News Briefs

A class of ten novices will be in-  
stated tonight at a meeting of the  
Santa Ana lodge of Moose, Knights  
of Columbus hall, Fourth and  
Spurgeon streets. Initiation  
will be by the team of the San Pedro  
lodge. A banquet will follow  
adournment of the lodge session.

Consideration of a countywide  
industry in handling prospective  
industries endeavoring to locate  
here will be given thought and  
open discussion at a luncheon here  
June 18 of all presidents and sec-  
retaries of Orange county Chambers  
of Commerce. It was an-  
nounced by J. C. Metzgar, secre-  
tary of the Santa Ana Chamber of  
Commerce, today. Location of the  
meeting place remains to be deter-  
mined, he said.

Bids on a six room addition to  
the west building of the Santa Ana  
high school group will be opened at  
a special meeting of the board of  
education here Saturday at 1:30  
p. m., it was announced today. It  
was understood that the additional  
rooms would be used for junior  
college purposes. Insurance  
amounting to \$10,000 for the new  
junior high school on South Main  
street is expected to be approved  
by the board at the meeting.

Ten building permits have been  
issued here this month to date for  
\$30,020 in new buildings, making a  
total for the year of 836 permits for  
\$2,839,452 in new buildings, ac-  
cording to records of W. S. Decker,  
building inspector.

Landscape the grounds of the  
Y. W. C. A. hut has been provided  
for in an appropriation approved  
by the board of education.

An under-secretary to serve with  
the Orange county farm bureau  
was to be appointed today at a meet-  
ing here of the farm bureau  
board of directors. The position  
was made vacant by the resignation  
of Edwin F. Whedon, who has  
gone to Los Angeles to attend a  
summer course at the University  
of California, Southern Branch.

The branch of the Orange coun-  
try free library at the Westminster  
school will be open two afternoons  
of each week during the summer, it  
was announced today by Miss Mar-  
garet Livingston, county librarian.  
Mrs. Ora L. Settle will be in  
charge. The library will be open  
Monday and Thursday from 2 to  
4 p. m., it was announced.

H. E. Wahlberg, Orange county  
farm advisor, was attending the  
installation of many paper tomato  
experimental plots in the county  
today.

F. E. Price and L. B. Wilcox, of  
Oregon State Agricultural college at  
Corvallis, were guests here to-  
day of W. M. Cory, assistant farm  
adviser.

R. B. Fasson, poultry expert of  
the University of California, was  
registered at St. Ann's Inn here  
today. He is scheduled to conduct  
the poultry culling demonstrations  
in the county of the Orange county  
farm bureau.

Fire in a bedroom of the home  
of J. H. Conrow, 712 East Walnut  
street, at 11 a. m. today caused  
damage amounting to \$10, accord-  
ing to report of Fire Chief John  
Luxemburger. Quick action on  
the part of the firemen, who re-  
sponded to the alarm, was credit-  
ed with saving the house.

Road maps will soon be a thing  
of the past.

The reason for their passing into  
oblivion being the efficient signing  
of the roads by auto clubs.

And then St. Ann's Inn is in  
the business too.

You just can't lose the way for  
the telephone poles along the high-  
way and main streets of the city  
have blossomed out with neat little  
yellow signs bearing a bright  
red arrow which indicates the  
direction to Santa Ana's handsome  
hostelry.

The first all-steel roof in the  
city—

is the one on the new Chris-  
tian Science church, being built  
at Main and Tenth streets.

And it's a beauty. But the  
whole church is beautiful.

Already, six weeks from  
completion, it gives an air of  
restfulness and luxury, which is  
indicated in every line of the  
structure.

Both building and grounds  
will be finished in about six  
weeks," said Foreman W. A.  
Borland today as he pointed  
out the men on the grounds  
beginning the work of clearing  
off for grading.

The butcher, the baker and the  
candlestick maker—

Right at your door.

So the people of the vicinity  
around Washington avenue and  
Main streets think these days, with  
the opening of the new stores in the  
Haley block.

Nine blocks from the center of  
the business district is a business  
block, which, within a few days,  
will contain, completely stocked

Mrs. Bettis was defended by At-  
torney Z. B. West Jr.

Perched on the top of the new  
Hall of Records and perilously near  
the edge "Brick" Grouard, head of  
the American Legion post here,  
was industriously laying nice yellow  
bricks. But Brick was too far  
up so the reporter talked to the  
contractor's assistant to find out  
how they were all getting along,  
anyway.

"Rotten," said Fred Swartz, who  
calls himself the "flunkie" but is  
really the big man on the job.  
Swartz is not pessimistic or any-  
thing like that. He's just a little  
bit put out because he can't get  
concrete fast enough to get his build-  
ing up with the proper amount of  
speed.

"We are all getting gray haired  
about getting our supplies, but even  
at that I expect that we will be  
out of here by November 1," said  
Swartz, as he took a look around the  
beautiful new county building and  
couldn't help smiling at his  
own apparent discouragement.

Every night at quitting time  
county officials put forty county  
owned motor vehicles to bed. Some  
of these, the roadsters and touring  
cars, sleep in the county garage at  
the corner of Sycamore and Church  
streets; trucks have to "rough it"  
down by the Santa Fe tracks at  
the end of Fruit street. This is a  
down by the Santa Fe tracks at  
the end of Fruit street. This is a  
sample of the information a visitor  
to the county garage can obtain  
from F. P. Lamar, who is the boss  
of Santa Ana and who is about to be  
re-elected. According to R. C. Smedley,  
building secretary, the work is pro-  
gressing with unusual smoothness  
and efficiency. That the new Y. M.  
C. A. home will reflect, throughout  
the city, the new Y. M. C. A. home  
will reflect, throughout the city,  
the atmosphere of Southern California  
is already apparent even to the  
casual observer.

The capacity of the place is also  
an impressive fact. The gymnasium  
will accommodate 700 spectators  
at games, in just the galleries and  
bleachers, and by using the floor  
space, will accommodate 1500 per-  
son.

The athletic grounds will provide  
everything from horseshoe golf to  
golf practice holes.

Pointing out that yesterday was  
the anniversary of national inde-  
pendence, a local Legionnaire to-  
day said that he counted flagpoles  
on twenty business houses in the  
city that were without the national  
colors. "Why?" asked the World  
War veteran.

Canada is larger by 102,108  
square miles than the entire United  
States, including Alaska, Hawaii  
and Porto Rico.

The first evidences of a belief  
in a survival after death appeared in  
the New Stone Age some 50,000  
years ago.

## SQ. CAL. GAINS IN INCOME TAX PAYMENTS

LOS ANGELES, July 5.—The annual report today of Collector of Internal Revenue Rex B. Goodell for the 6th district of California, comprising the ten Southern counties, for the fiscal year ending June 30, discloses the following facts which indicate increased prosperity in Southern California:

From January to June, 1922, there was collected as income tax payments \$17,439,426.80. For the same period of 1923, there was paid in the coffers of the government through Mr. Goodell's office, \$21,777,851.31, or an increase of \$4,338,424.51.

For all other taxes there was collected from January 1 to June 30, 1922, \$4,911,326.74; for the corresponding period of 1923 there was paid in \$5,921,775.69, or an increase of \$1,009,848.95. This was a total increase of the period January 1 to June 30, 1923, over a corresponding period in 1922, of \$5,348,273.46.

Collector Goodell stated the indications are that the proportion of gain will increase rather than decrease during the balance of 1923, and that this year will be a banner year for his office.

**Tustin Is Amazed  
At Stream of Cars**

(Special to The Register)  
TUSTIN, July 5.—Automobiles passed through Tustin yesterday, for practically nine hours, at the rate of twenty-four per minute, more than one car every three seconds.

Reporter Counts 'Em.

The Register representative, stationed at the corner of D and Main streets, checked 1440 cars for that time. At this rate it is pointed out that during a period of nine hours a total of 12,960 cars would have passed the intersection, in the center of Tustin.

It was estimated that the cars would average five persons each, which would mean that about 64,800 people yesterday afternoon rode through Tustin on their way to enjoy the "Fourth."

The people of Tustin sat on their front porches and watched the "serpentine" wind on its way. Those who were not fortunate enough to have a place to rest where they could watch the steady stream of vehicles used the porches of those who did have them. From early morning until late at night, the slumbers of the residents near the highway were disturbed by the steady hum and purr of the motors.

Only One Accident.

From this amazing crowd, only one accident was reported. A Chalmers touring car belonging to Mrs. Otis Lehman, 4098 Hillcrest Drive, San Diego, suffered a smashed wheel when the car was forced off the road into the ditch. No one was injured.

**Salmon Bring Record  
Prices to Fishermen**

ASTORIA, Oregon, July 5 — Good returns are reported by local salmon fishermen along the Columbia River, although there has not been a "run" of the fish enter the stream since the season opened on May 1.

Prices paid for raw salmon caught in the Columbia are the highest in history. The regular prices at the canneries is 16 cents per pound, while some buyers are paying 18½ cents.

**TYphoon Damages Islands**  
MANILA, July 5.—There was widespread property damage but no loss of life in the recent typhoon that swept the islands, according to reports now coming in from the different Provinces. Roads, bridges and lines of communication suffered most.

**DOCTORS ADVISE  
PORT WINE AND  
OLIVE OIL**

A prominent physician in an interview today says if the public only knew the tonic value of port wine and olive oil they would quickly regain their health.

It gives rest to tired out, run-down systems, is especially valuable in anemic and all wasting disease, increases weight and strength.

Start today taking Port Olive nectar, and you will see how quickly you improve. On sale at all druggists. The Port Olive Co., 216 S. Broadway, Los Angeles.—adv.

**CAMP CURRY**

Search the wide  
world over — there  
is only one Yosemite  
and only one Camp  
Curry!

Camp Curry enter-  
tainments, recreation  
facilities and genuine  
hospitality make it  
the ideal place in  
which to spend your  
vacation. Accommodations  
this year more complete  
than ever before. Under the personal

## Youths Start Gold Rush By Uncovering \$100 In Buried Jar

YREKA, Calif., July 5—Scenes of the early fifties were recalled here when nearly 100 boys, equipped with picks, shovels and pans, stormed the flats immediately west of town in quest of gold.

The boys were attracted to the scene following the discovery by three small boys of a jar of gold, perhaps hidden years ago by a Chinese. The jar contained two \$5 gold pieces, many small nuggets and a quantity of gold dust, making a total value of about \$50. In taking out the jar it was broken and considerable gold dust strewn on the ground.

The boys in panning for the dust which was lost out of the jar found small nuggets, ranging from the size of a grain of salt to that of a man's thumb, some free and some in quartz. The amount these boys took out brought the total to more than \$100.

While it is believed that the gold was hidden near the jar, it is recalled that gold was discovered in that locality in 1852, in pockets similar to the one from which the boys have been panning nuggets.

**Child Dead, 43 Hurt  
In Grandstand Crash**

SALT LAKE CITY, July 5.—One person was killed and forty-three were injured, several seriously, here last night when a temporary grand stand, loaded with hundreds of persons watching a Fourth of July celebration at Liberty park gave way and crashed to the ground, burying under the wreckage many of the injured.

Ruby Soderby, 9 years of age, lost her life in the crash, dying of a broken neck at the Emergency hospital. Most of the injured suffered broken limbs, abrasions or head injuries.

**BOOST BANK RATE**  
LONDON, July 5.—The London bank rate was raised to 4 per cent today.

## BIG SPAN WORK LET TO YOUNG MODJESKI

Ralph Modjeski, who is well known by many residents of Orange county who became acquainted with him during the lifetime of his mother, Madame Helena Modjeska, has been commissioned to build the \$6,000,000 suspension bridge over the Hudson river at Poughkeepsie. Modjeski is a famous engineer who has built many of the largest bridges in the world.

His name was changed to Modjeski for American naturalization, his mother being the eminent tragedienne, whose home was in Orange county. The son studied at the leading engineering schools in Paris and then returned to the United States to begin the practice of his profession. He has designed and built several of the great bridges across the Mississippi river, the Columbia and William-

ette river bridges in Oregon, and many other railway bridges in other parts of the United States and Canada. At present Modjeski is engaged in the construction of the Philadelphia - Camden suspension bridge, which will have a span of \$1,750 feet, the longest in the world.

## STOP ITCHING SKIN

**Zemo the Clean, Antiseptic Liquid,  
Gives Prompt Relief**

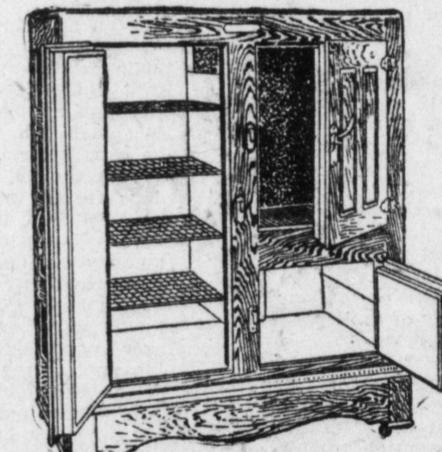

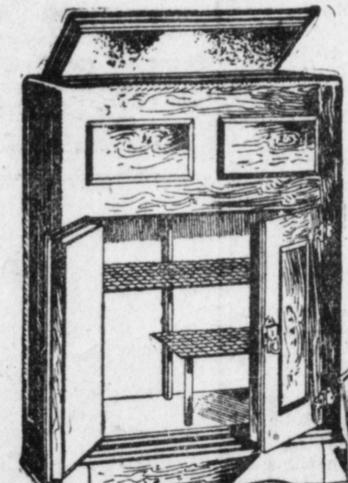

There is one safe, dependable treatment that relieves itching torture and that cleanses and soothes the skin.

Ask any druggist for a 35c or \$1 bottle of Zemo and apply it as directed. Soon you will find that irritations, Pimples, Blackheads, Eczema, Blotches, Ringworm and similar skin troubles will disappear.

Zemo, the penetrating, satisfying liquid, is all that is needed, for it banishes most skin eruptions, makes the skin soft, smooth and healthy.

One Dollar  
Delivers to  
Your Home Any  
Refrigerator  
in Our Stock!

EXTRA shipments of refrigerators were ordered expressly for this occasion. They comprise our regular line, but we ordered larger numbers to take care of the avalanche of orders that this offer is sure to bring down upon us. Whether the price of the refrigerator is \$12.75 or \$50.00, you need only \$1.00 cash to have it delivered to your home. The balance may be paid on such absurdly easy payments that it is hardly worth talking about. The whole question is, DO YOU WANT A REFRIGERATOR? If so, bring \$1.00 tomorrow and give us your address!

At \$12.75 we offer a top-icing refrigerator holding 35 lbs. of ice.

At \$14.75 we offer a top-icing model with white enamel food compartments, 35-lbs. capacity.

At \$23.75 we offer a side-icing type holding 50 lbs. with white enamel food chambers; and this is a Baldwin Vermonter. Such a value!

FRECKLE-FACE

Sun and Wind Bring Out Ugly  
Spots. How to Remove Easily

Tere's a chance, Miss Freckle-face,  
to try a remedy for freckles with the  
experiments. An ounce of Othine—  
double strength—from any druggist  
and a few applications should  
give you a clear complexion. The  
strength is trifling, and the cost  
will not cost you a penny unless it  
removes the freckles; while it does  
give you a clear complexion the ex-  
periments are trifling.

Supper for the children will be  
furnished by a general committee  
of arrangements but W. C. T. U.  
members are asked to provide pic-  
nic baskets for themselves. It is  
the plan of the Union to make the  
afternoon a very happy one for the  
children and to offer a whole-  
hearted friendship to them.

**GOSPEL CAR CONVERT.**

TUSTIN, July 5.—Wyckoff of the gospel car of the Advent Christian church, which has been holding services on the street corners for the past three or four weeks. Mr. Wyckoff was baptised at the Advent Christian church of Tustin Monday evening by the Rev. E. W. Shepard, evangelist of the gospel auto. Mr. Wyckoff is employed by the Excelsior Creamery company of Santa Ana, and is the brother of William H. Wyckoff, foreman of the plant.

**COMPANY F WANTS FEW NEW MEMBERS**

"Any young man who wants to enlist with Company F and go to the big annual encampment may enlist tonight or tomorrow night, and tomorrow night will be the last chance," declared Harry Pritchard, captain of the company, today.

Captain Pritchard said he would like two or three more men for the company and is urging those interested in the welfare of the guardsmen join with him in an effort to procure them.

"Any one interested in joining the company may call at the armory on Birch street this evening or tomorrow evening," said the captain, "and we will be glad to talk the matter over. Any question concerning the service will be cheerfully answered."

The company is to take train Saturday afternoon for the encampment, which is to be held at Salinas.

**Charged Blonde Movie Actor Abhored Labor**

Alleging that he abhored labor, that he showed intense interest in the affairs of other women and that he misused her automobile on numerous occasions, Bess Mitchell, pretty motion picture actress, today had on file in Los Angeles county, a divorce action against her husband, Edward Engle, now free on bail pending his hearing in Orange county superior court on charges of bigamy, also brought on his wife.

"I'm through with blondes forever," the cinema actress said. "I don't know how I happened to fall for him. I guess it was his voice. He desired only a leaning post, and I guess I was it, for he leaned against me heavily and continually."

**EX-AUTO MEN SEE SUCCESS IN LAND**

With virtually all the used cars sold that they had on hand when they disposed of the Ford and Lincoln agency here, Knox and Stout are turning their attention to the home-building program they announced some months ago they would undertake here.

Pending disposition of the stock of used cars the firm has been busy acquiring lots on which to build, with the result that they are now the owners of a large number of lots in the McFadden Home tract No. 2, and Wilshire square. They also have other lots in different parts of the city.

According to announcement today, construction work has been started on seven houses in the McFadden tract. Sam D. Heckert is the contractor. Later the firm will build on eleven lots in Wilshire square.

"We are using our own men in our building program," said John Knox. "We will build and sell on easy terms. We believe Santa Ana is going to grow faster in the next two years than in the past two and it will be our endeavor to meet a portion of the demand for new homes that is certain to come with increased population."

**Blind Napa Justice Guesses Correct Time**

NAPA, Calif., July 4.—Many people claim ability to tell time by the sun and other natural phenomena but friends of Justice of the Peace C. H. Snow, blind magistrate here, contend Snow holds the record in his class.

Judge Snow awoke one night recently and discovered that the clock, from the hands of which he reads the time, had stopped. Investigation revealed he had forgotten to wind the clock so Judge Snow wound it, guessed the time and returned to bed.

When the 6 o'clock whistle blew in the morning Judge Snow checked his guess as to the time and found the clock was two minutes off.

BEACH W. C. T. U. MEETS HUNTINGTON BEACH, July 5.—Tomorrow at the executive meeting of the W. C. T. U. members of Orange county at the Christian church, with the local organization in charge of arrangements. Mrs. Eva C. Wheeler, of Los Angeles, state president of the organization, will be the principal speaker. A "Pot Luck" luncheon will be served at noon. The Huntington Beach division will serve coffee.

TO REFISH FLOOR HUNTINGTON BEACH, July 5. The city auditorium will be closed to the public from today, July 5 until August 5, while Clark brothers, general contractors for the new city plant, refinish the auditorium floor. When they discovered that the present floor was unsatisfactory to the city council they agreed to do the work again immediately.

A classified ad costs little, but brings big results.

**TONIGHT'S ATTRACTIONS**

YOST—Vaudeville and "Stepping Fast," with Tom Mix.

WEST END—"The Law of the Lawless," with Dorothy Dalton.

TEMPLE—"Down to the Sea in Ships," with Marguerite Courtot.

PRINCESS—"Canyon of the Fools," with Harry Carey.

• • •

**"THE LAW OF THE LAWLESS" AT WEST END TONIGHT**

Can any member of the geography class bound Dobrudja?

For the benefit of those who can't, it is a province of southeastern Roumania bounded by the Black Sea, the Danube and Bulgaria, and it is the locale of Dorothy Dalton's latest Paramount picture, "The Law of the Lawless," which will be the big attraction at the West End theater beginning tonight.

According to the geographies and Konrad Bercovici, the gypsy author who wrote the story of "The Law of the Lawless" directly for the screen, the province is the melting pot of the near-East, populated by Tartar tribes and wandering bands of gypsies, and it is of those that Bercovici writes in this picture.

Dorothy Dalton plays the role of a young Tartar girl, daughter of a once wealthy Tartar landowner who, through reverses, has been forced to pledge his entire worldly possessions including his daughter to the local money lender.

The star is supported by three of the screen's most capable

Dorothy Dalton and Charles de Roche in a scene from "The Law of the Lawless," attraction which comes to the West End tonight.

leading men—Theodore Kosloff, who plays the Tartar sweetheart, Charles de Roche, a French star who makes his American debut in this picture, as the gypsy chief, and Tully Marshall, who has the part of the money lender.

Other members of the cast are Margaret Loomis and Fred Huntley.

**CENTURY-OLD COSTUMES IN PICTURE AT TEMPLE**

Quaint customs as well as

quaint costumes of a century ago

are picturesquely revived in Elmer Clifton's super photoplay production, "Down to the Sea in Ships," which is now showing at the Temple theater.

The memory of Quaker days in

the quiet and peaceful whaling

village of New Bedford, Mass.,

has been conveyed in the silver

screen in a series of picturizations which vividly recall the

thrills, romance and adventure

of the early days of that now

rapidly decadent industry, the

**Princess****HARRY CAREY  
"CANYONS OF THE FOOLS"**

A surging, pulsating action that gathers momentum as it rushes along to one of the greatest climaxes ever thrown upon the screen.

See the terrific dam-break with millions of tons of water sweeping through the valley—animals carried away by the swift current—the machine-gun duel and the explosion that blows a hotel into atoms!

And merged into this stunning tale of adventure is a love story with all the consummate interest of Romeo and Juliet.

## "WHAT CAN CHIROPRACTIC DO FOR ME?"

is a question asked me daily. I never attempt to give an answer without first making a careful examination of the spine to determine whether nerve pressure is causing the sickness. If I find this nerve pressure—the CAUSE of the trouble—then I advise Chiropractic Adjustments.

"Do you think you can get me well?" is the next question asked. I know there is within the body, when supplied with food, everything necessary to enable the body to maintain perfect health. The trouble is that some part of the human machine is not working as it should, because it is not receiving its share of operative power. This power is NERVE FORCE, and it should be delivered to all parts of the body by the nerves.

Chiropractic Adjustments get sick people well by making it possible for the nerves to do their share of work imposed upon them. I simply release the pressure which is shutting off the full flow of nerve current to the part of your body affected. This removes the CAUSE of your trouble, and everyone knows that once the cause of sickness is corrected, health will follow.

I want the opportunity of answering YOUR questions, that you may understand WHY Chiropractic is the best way to health. Consultation is free.

## Canadian Pacific Rockies

Cool dewy sunrise. Keen appetite for breakfast. Alpine flowers nodding gay good mornings. [And back home it starts out a hot summer day.]

Up the trail through fragrant forests, afoot or on ponies. Jolly companionship. Out above the timber line. Past the last edelweiss at the edge of snow. [It's a sultry 11 o'clock back home.]

Roped together. Up to the peak with the Swiss guide. To a spring of crystal water. Your lunch—a feast. An hour's rest in the sun on the roof of the world. [You pity your friends back home.]

Down through a golden afternoon to Chateau Lake Louise, or Emerald Lake Chalet, or one of eight Bungalow Camps. Supper. A long, delicious evening. Sleep like that of a 4 year old!

For full information, telephone, write or call at this office.

## DROPPING TREE LIMBS DRAW HOT SHOT

The secret is out.

H. E. Wahlberg, county farm advisor, likes to take walks, of Sunday afternoons, but this diversion is being greatly interfered with.

He said so, himself, today in a statement wherein he advocated a liberal use of the pruner's tools, not alone on orchard or back-yard trees, where such tools are most commonly used, but on the trees that border the city's streets.

"I am sure that the pruning shears, saw or ax would make some of the walks or streets safer for the traveling or walking public," he said.

"The need of this is often brought forcibly to one's attention by a tear in one's hat, a pock in the eye, or a rip from fore to aft on the auto top."

"My fondness for walking Sunday afternoons has been virtually discouraged by the numerous low-hanging branches of shade trees and palms along the parking. I am sure many more would use the sidewalks if they were kept open for traffic."

It is generally only a case of oversight or carelessness on the part of the property owner that results in failure to keep the sidewalk clear in front of his place. The automobile is probably to blame for the condition, because so many of us will take the machine rather than walk a few blocks, consequently the disturbing trees are overlooked."

## PROBE CLIMATE TO FIND ADAPTABILITY

One of the most promising forward steps in horticultural activities has been taken up along two different lines, at points widely separated.

In the state of Washington the question of what varieties of fruits were best adapted, from a climatic standpoint resulted in a comprehensive tabulation covering all fruits produced commercially in that state.

Also in Arkansas, the federal and state authorities, during investigation for the control of San Jose scale, compiled a list of apple varieties, showing their respective degrees of susceptibility or immunity with regard to that destructive pest.

The sum total of these investigations means that the day is not far distant, when with the combined aid of horticulturists, entomologists and plant pathologists, it will be a matter of record as to what best to grow with profit and what to avoid.

The surprising feature appears to be, that some such concerted action, to these ends had not been taken years ago and when the day arrives that the orchardist will be able to eliminate the speculative feature of "what to grow" from the point of susceptibility to insect, bacterial and fungous pests, climatic and soil conditions, then only will the products of farm and orchard, return to farmers and fruit growers that degree of increased compensation that he should, but does not now enjoy.

The orchardist will be able to eliminate the speculative feature of "what to grow" from the point of susceptibility to insect, bacterial and fungous pests, climatic and soil conditions, then only will the products of farm and orchard, return to farmers and fruit growers that degree of increased compensation that he should, but does not now enjoy.

Are your fuel bills  
running too high?

WITH a wickless  
Florence Oil Cook  
Stove you can cook  
economically, quickly  
and in comfort.

The wickless burner is easy  
to light; the heat is intense.

Kerosene is the cheapest  
concentrated fuel and is  
easy to get. And in a  
Florence you burn no more  
fuel than you actually need.  
The heat is close up under  
the cooking, and can be  
regulated by the mere turn  
of a lever.

A few minutes spent in a store where Florence  
stoves are sold should convince you that you can  
avoid kitchen drudgery and reduce fuel bills by using  
a Florence Oil Range.

MANY S. A. FOLK  
ATTEND G. A. R.  
PARK MEET

Members of Sedgewick post No. 17, G. A. R., today expressed appreciation for the large number of Santa Ana persons who joined their gathering at Birch park yesterday, and, at morning and afternoon ceremonies, paid tribute, by song and speech, to the 14th anniversary of the signing of the Declaration of Independence.

Several hundred persons were in the audience in the afternoon to hear B. R. Ford, well known Santa Ana patriotic speaker, deliver an address on "Patriotism."

E. T. Langley, patriotic instructor of the local G. A. R. post, called to the platform representatives of all patriotic organizations of the city and, in a brief talk, declared that in the future Santa Ans never would allow a Fourth of July to pass without a public celebration.

Strong Crowds Beaches.

The absence of automobile accidents, together with clear skies which made surf bathing more enjoyable, marked the celebration of the day at Orange county beaches. All of the resorts were crowded and attractive nooks by the roadside were often pressed into service by picnickers.

Laguna Beach entertained one of the largest crowds in its history.

At Huntington Beach, it was estimated 50,000 persons were present for the vaudeville program, the water sports and the fireworks at night off the pier. More than 800 pounds of pyrotechnics were set off. The carnival concessions, under the supervision of Joseph Rodman of the American Legion, did a tremendous business.

Laguna Host to Many.

The observance of the day at Laguna Beach was more of a quiet nature, as is usually the case at Orange county's artist colony. The beach was lined from early morning until evening with bathers who declared that the sport could not have been better. Picnic parties were the order of the day.

Band music lent a holiday atmosphere to the immense crowds at Balboa and Newport. Yachting, surfing, bathing, rowing and other sports entertained the largest crowd in the history of the resort.

Outside of a few arrests for alleged violation of traffic ordinances the day was quiet in police circles.

Campers Guard Fires.

Aside from a slight blaze in the brush at the head of the El Modena grade, there were no fires started in the Orange county hills yesterday, despite the throngs of campers, Ed Adkinson, county fire warden, reported today.

The blaze above El Modena was sighted at noon by the lookout on Santiago Peak. Immediately men were sent to the scene of the fire, and they soon had it under control. No damage except the burning of a few acres of brush resulted. The origin of the fire was not learned.

Every available spot of shade in the Orange county hills seemed occupied by pleasure seekers. Forest officials reported the best of order and care on the part of those in the hills.

OPEN FIRST SUMMER  
KINDERGARTEN HERE

A summer kindergarten, the first of its kind in the city, where the youngsters can learn and play under careful supervision, is being started by the Misses Viola Tummond and Beatrice Anderson, two experienced kindergarten teachers and senior students in the kindergarten course at the University of California, Southern Branch.

The morning hours have been chosen for the class work, although if demand warrants it, these young women say they will extend the work into the afternoon.

Children of kindergarten age are given regular kindergarten training with games, handicraft, singing, story telling and all of the methods used to entertain and instruct at the same time.

A big cool screen porch and a spacious shady lawn have been arranged by the teachers for their classes and they have announced that there is still room in their class for several more children.

Parents who wish to consult them about arrangements should phone

Miss Anderson at 876 W.

Comparative Quality and Prices of shoe leather. F. H. Blum uses only the prime stock on all jobs. In the long run the best is the cheapest. Men's half soles \$1.50, ladies' half soles \$1.00. We hand sew the soles. We do all jobs of repairs, no matter how worn out they are. 104 E. 6th street.

Auto Thieves Escape  
With Sleeping Youth

RED BLUFF, Calif., July 5.—County and city officers were scouring this section of the state today for traces of an automobile stolen last night during the Independence Day celebration at Joyland. A six-year-old boy, Elwood Herr, asleep in the car while his parents attended the celebration, is missing.

U. P. TO SPEND  
\$2,000,000 IN  
THIS COUNTY

The Union Pacific has expended or will expend \$2,026,000 in completing its branch line into the county as far as Anaheim, according to an announcement made here today by C. S. Browne, district agent here. Browne's announcement was based on an itemized statement of costs received by him from M. deBrabant, Los Angeles official of the railroad company.

De Brabant advised that the company had made additions and improvements to its lines, including the Orange county branch, totalling \$5,801,000, since July, 1921, when it took over the Salt Lake and Los Angeles line.

The itemized expenditures since that date revealed, Browne said, that the right of way and station grounds of the company on the branch to Anaheim cost \$938,000, while construction of the eighteen miles of road, and erection of stations at La Habra, Anaheim and Fullerton, cost \$968,000. The La Habra station has been completed. Stations at Fullerton and Anaheim, according to Browne, will be completed within thirty days.

The company spent \$75,000 for a spur on the Basta Ranch, \$34,000 for service tracks at the Anaheim packing house and \$11,000 for a spur at the La Habra packing house, it was shown.

Indicating what the company has done in preparing to render high class service in Los Angeles, and incidentally for Southern California, it was revealed that \$2,076,000 had been spent on the Alameda street terminal in Los Angeles, including \$1,650,000 for right-of-way and station grounds.

The company purchased, in three tracts, 557 acres near the Southern California metropolis, the acreage, purchases and costs being listed as follows:

Two hundred and thirty acres for East yard terminal, \$238,000; 207 acres for the Union Pacific industrial tract, \$408,000, and 516 acres for industrial tract, \$495,000.

Freight house construction, service tracks and paving at Long Beach entailed an expenditure of \$213,000 the report discloses.

DEVELOP HEAVY  
GAS FLOW IN  
CANYON WELL

With the drill at 1200 feet and boring a new hole, a strong flow of gas has been developed in the well of the Tepathol Oil company, operating on the W. K. Robinson ranch, in Trabuco canyon, according to a statement made today by T. P. Kingrey, a member of the company.

According to Kingrey, geologists predict the development of a high gravity oil at shallow depths and the opening of a new field in the Trabuco section.

"Charles Nevin, one of the best drillers in the state, is in charge of drilling operations on our property," said Kingrey.

"He has had fourteen years experience with one of the big oil companies, and he is predicting the development of a good commercial well in a very short time."

Health Board Closes  
Branch Laboratories

SACRAMENTO, Calif., July 5.—The Los Angeles and Sacramento laboratories of the state board of health have been abandoned because of lack of funds to carry on the work, it was announced today by Dr. Walter Dickie, secretary and executive officer of that body. Hereafter all laboratory work must be done at Berkeley with a reduced force, he said.

Figure this: If you spend all day trying to sell something, and sell it, it has cost you to make the sale whatever your time for the day is worth. The same sale could be made without waste of time. How? By a classified advertisement in The Register.

Rochester Doctor Achieves  
Remarkable Success With  
New Prescription for Piles

ROCHESTER, N. Y.—For years it has been known that many so-called remedies for the relief or cure of Hemorrhoids or Piles were simply palliatives and gave only temporary relief while surgical operations often adopted as a last resort never removed the cause but simply the formation.

It has remained for a well known doctor of this city to find the real remedy. Years of patient, painstaking effort on his part has resulted in a prescription that will actually heal piles and absorb them never to return.

No man or woman need suffer another hour from any pain, soreness or distress arising from Hemorrhoids or Piles now that this wonderful prescription known

BIBLE SCHOOLS  
PREPARE FOR  
PARADE

Children of the vocation Bible schools of the city today were given final rehearsals for the parade and other features incidental to the play-day program for tomorrow.

The parade is scheduled to organize at the First Presbyterian church and to move at 10 a. m., the route being west to Broadway, south to Fourth, east to Spurgeon, north to Sixth and west, to the church.

According to Miss Belle McDermott, one of the instructors at the Presbyterian church classes, the program at Birch park for the juniors will include the "green mill" game, memory work and songs. The intermediates will participate in a similar program. These two classes will go to the park when the parade disbands.

The primary and kindergarten departments will go to their respective class rooms, where programs will be given especially for the benefit of parents.

It is expected a large number of the pastors and Sunday school teachers of the city will report at the church at 9:50 a. m. tomorrow and lead the parade.

Use Cannon In Fight  
On Texas Oil Blaze

CORSICANA, Texas, July 5.—A French seventy-five was used today in an effort to extinguish a burning oil well near here.

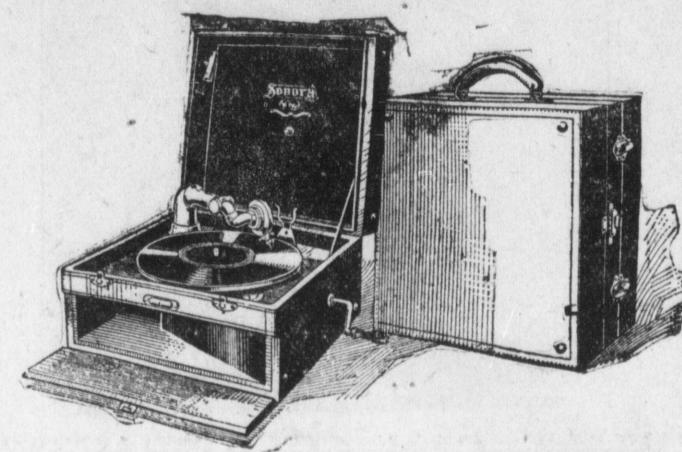

The flames have flowed furiously for the past three days. Attacks on the blaze with a 37 millimeter army gun were of no avail.

National guardsmen have joined with firemen in attacking the flaming gusher.

Better Furnished  
American Homes

MERICAN women are not only the best dressed in the world, but it is also true that their homes are better furnished, more expressive of good taste and of personality.

—The demand for "better furniture" is another evidence of the increasing discrimination on the part of American women.

—This demand has been splendidly met by American manufacturers, and our own part in the movement is to select and display the best furniture of the day at prices based on sound value.

—Chandler's offer co-operation to the Orange County woman who cares about the appearance of her home—who realizes its great importance as a cultural and social asset. Our staff is at your service to offer experience and advice in any furnishing problem you may have.

"Yours for quality—but always at  
the lowest possible price"

SANTA ANA CALIFORNIA, THURSDAY, JULY 5, 1923

PAGES NINE TO SIXTEEN

### NORMAL STRIDE IN BUILDING OPERATIONS CUTS HOME SHORTAGE

### CROWDED ROADS BRING PROFIT TO HOMETOWN MERCHANTS IS CLAIM

1,600,000 Homes and Business Projects Necessary Says Survey

#### GAINING ON DEMAND

Big Increase In Activities Seen In First Three Months of 1923

Building operations throughout the United States became normal in the middle of 1922 for the first time since the early part of 1914, according to a recent survey of viewed by Orland Robertson of the Robertson Electric company.

Robertson said that the survey discloses an accumulated shortage of 800,000 homes on the Pacific coast and of an equal number of other types of buildings, making a total of 1,600,000 building operations necessary to make up the shortage and take care of growth in population.

**Shows Increase**  
"This means that while the first three months of 1923 showed an increase in building activities in this territory of 38 per cent above normal, economists studying this problem agree that 25 per cent per year above normal operations is required for the next five years to take care of the demand," said Robertson.

Of course, high labor costs and exorbitant prices of materials will tend to curtail these operations to a certain extent, but in spite of these factors the demand is great enough to force building at an extraordinary rate.

**Index to Growth**  
"Building activity is always an index to commercial growth and with such a program in sight it would appear that every sound commercial business is due for large development within the next five years, provided business men

### the American Language

contains many most interesting words of one syllable which can out-punch any of the polysyllabic monstrosities invented by Noah Webster in his more generous moments.

The long ones are occasionally handy to conceal one's thoughts or, without in any way lowering one's dignity, take back something one should not have said.

But to "build" a strong phrase of great force short words are best.

The word "build" is itself an example of a word of punch in a single syllable.

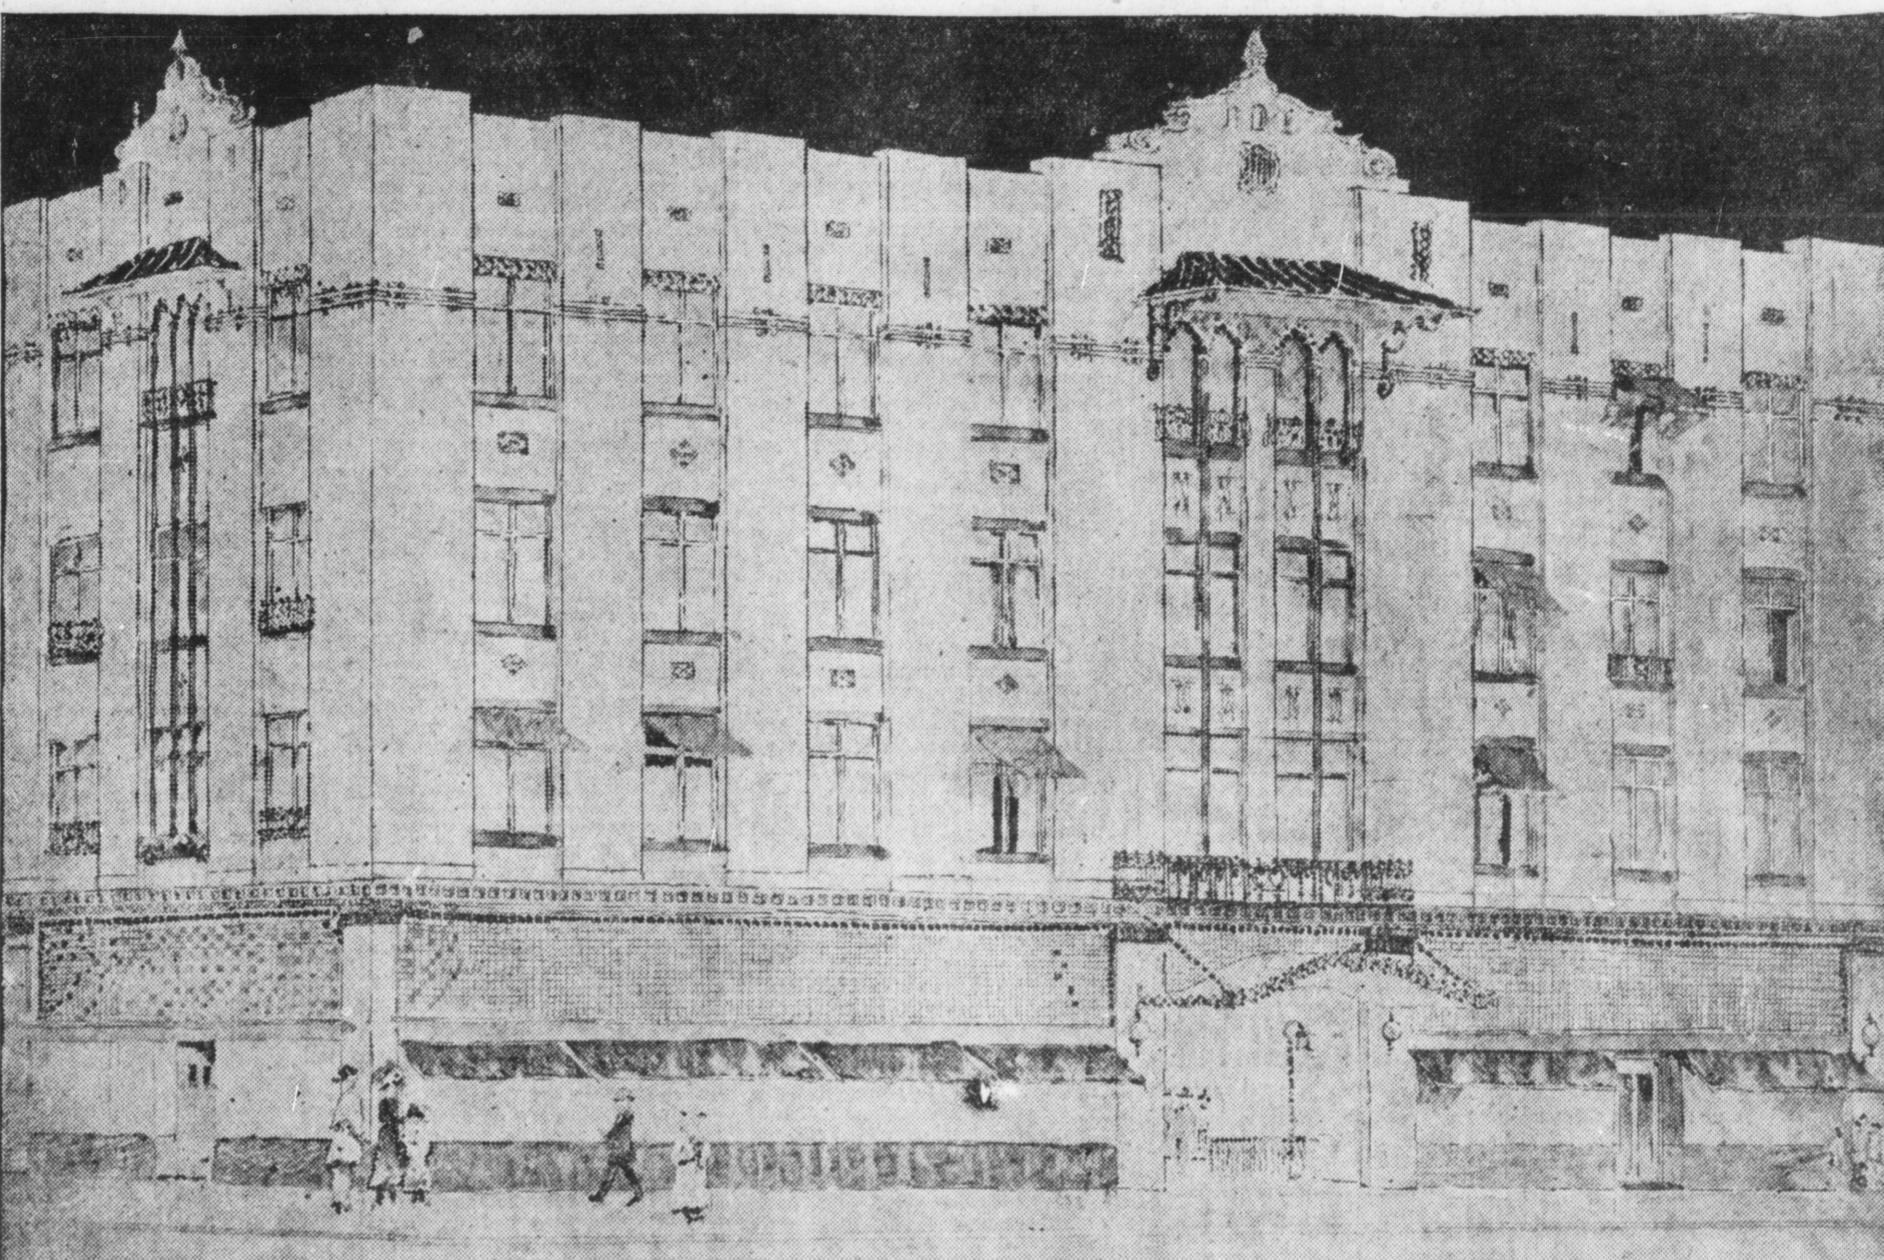

You can "build" character, or railroads, a big financial organization, a mouse-trap or a reputation.

"Build" is a big word — a real word that can out-punch many a longer one, and it is at its best when you say, "I am going to build a home for my very own."

### IMPOSING NEW BUILDING FOR WEST FOURTH STREET

Drawing of the new 4-story office and store building to be erected at the southeast corner of West Fourth street and Broadway. H. Newton Thornton, local architect, prepared the plans. Construction is expected to begin July 15. The cost was estimated at \$80,000.

### S. A. SOLD TO NEWCOMER ON FIRST SIGHT

### RANCH PROFITS MADE BY S. A. MERCHANT

Arriving with his family in Santa Ana Saturday from Fort Dodge, Iowa, Edward Baudet today had under construction a new residence in Washington Acres, on West Seventeenth street, according to announcement of Everett A. White, one of the subdivider of Washington Acres.

Trading to E. E. Vincent of the Santa Ana Branch of the Pacific Southwest bank of Los Angeles, business property at Laguna Beach occupied by the Roberts grocery, Seidel has become the owner of seventeen acres of apricots at Nuevo. The Laguna Beach property was valued at \$19,000 and the Nuevo at \$9,000; Seidel receiving the difference in cash.

In an exchange with W. B. Clark of Anaheim, Seidel has become the owner of twenty acres of Valencia oranges west of Anaheim, a part of the old Tim Carroll ranch. The value of the twenty was \$60,000. Clark accepted at \$40,000, 120 acres in Paradise Valley, near Chico, Cal.

Seidel purchased the northern ranch several years ago and has planted thirty-five acres to pears and five to cherries. Clark will move to the northern ranch.

McCain also reports the sale for A. L. Austin of twenty acres of peaches at Nuevo to George and Glen Wells of Tustin, for \$20,000 cash.

Has you found something that doesn't belong to you? Find the owner by advertising the find in the Register.

### Care of the Eyes

BY DR. ROY S. HORTON  
OPTOM-ETRIST.

#### THE LIGHT THAT BURNS.

Light is essential to vision but we must control or subdue it in order to make it beneficial rather than detrimental.

Some one discovered that the rays of an electric light directed against the ceiling instead of full on the paper of the worker practically eliminated eye strain and we now have indirect lighting. There was a heavy toll in blindness before men came to a realization that they could not defy the killing rays of oxygen or electric torches for cutting steel, or the blast of a furnace, without adequate protection to the eyes. Snow blindness is as much feared in the North as the biting cold.

The glare of a thousand varying lights and colors are continually fighting to irritate our eyes. The blazing sun of mid-summer; the less intense but more brilliantly colored sunsets; the glare from coated book paper under a bright electric light, often conspire to break down that delicate organ.

But science has given us a means of combating these harmful rays without impairing clear vision, as in the case of the ordinary colored lenses, which at the best, are disfiguring in appearance.

CROOKES GLASS, which is of a neutral tint, offers better protection to the eye against irritating light rays than any colored glass at present known.

"You Can't Be OPTOMISTIC With MISTY OPTICS"

### Continued Progress Shown in June Building Report

Renewed assurance that Santa Ana would attain a record of \$6,000,000 for its 1923 new building quota was given today by W. S. Decker, building inspector, upon issuance of his report of building activities here for the first six months of the year.

The report showed that 826 permits had been issued for \$2,809,432 in new buildings, between January 1 and June 30 this year, as against 757 permits issued for \$1,854,240 in new buildings during the first six months of 1922. The figures showed an increase in business this year over last year of approximately 50 per cent.

The complete report with comparative statistics was as follows:

Month	Permits	Value	Permits	Value
January	106	\$219,476	164	\$339,134
February	122	236,245	142	346,108

## TRADING MODERATE ON L. A. MARKETS

### Apricot and Plum Prices Advance On High Class Stock

LOS ANGELES, July 5.—Trading today was moderate following the holiday. Apricots and plums are cleaning up and good stock is selling slightly higher. Lettuce is temporarily scarce and higher. Cantaloupes show a firmer feeling on best stock, although the market is over-supplied with soft melons. Watermelons are selling slowly with a weaker feeling evident.

APPLES—Washingtons: Extra fine Winesaps and Romees, 30¢ to 35¢ box; early, 25¢; late, 30¢; fancy, 35¢ to 40¢ per pound.

APRICOTS—Per pound: Northern, mostly 20¢ to 25¢; Southern, 15¢ to 20¢.

CANTALOUPES—Locals: Best, 25¢; small, 3¢ to 4¢ per pound; packed, 25¢ to 27.5¢ per box.

CHEESE—California flats, fancy, 25¢ to 30¢.

CITRUS MARKET

LOS ANGELES, July 5.—Butter 47¢.

Eggs, extra 30¢; case count 28¢; pullet 27¢.

Hens, 15¢ to 28¢.

Broilers, 25¢.

Fryers, 30¢.

Turkeys, 15¢ to 40¢.

Old ducks, 10¢.

SAFETY PIN TABLES

PER BUNDLES: Locals and carrots, 25¢ to 40¢; turnips, 45¢ to 50¢; parsley and radishes, 15¢; spinach 22¢ to 25¢; pony beans, 25¢ to 30¢.

SPINACH—Locals: Best, 15¢; small, 10¢.

STRAWBERRIES—Locals: Best, 25¢ to 30¢; small, 15¢ to 20¢.

PEACHES—Locals: Best, 25¢ to 30¢; small, 15¢ to 20¢.

PEPPERS—Per lb.: Chillis, 12¢ to 18¢; Bellis, 14¢ to 16¢.

LEMONS—Special brands, 8.00¢ to 9.00¢.

CELERY—Locals, best, 65¢ to 90¢.

ONIONS—Stockton: Reds, 2.25¢ to 2.50¢; yellow, 2.00¢ to 2.25¢.

ORANGES—Locals, special brands, Valencia, 3.75¢ to 4.50¢ box, according to 12¢ per lug.

PEAS—Per lb.: Guadalupe and San Luis Obispo, few best, 14¢; mostly 12¢; poorer, 8¢ to 10¢.

PEAS—Per lb.: San Luis Obispo, 12¢ to 15¢.

PEAS—Per lb.: Los Angeles, 12¢ to 15¢.

PEAS—Per lb.: San Luis Obispo, 12¢ to 15¢.

## NORMAL STRIDE IN BUILDING HERE

(Continued from Page 9)

keep their feet on the ground. Bankers, financial men and economists all over the country are advising business men not to inflate or over-reach in their efforts. If this warning is heeded, and everybody settles down to constructive hard work our commercial and industrial future looks bright.

Emphasizing the importance of such a widespread building program to the electrical industry, he said, more buildings mean more electrical installations; more electrical appliances and equipment, and electrical energy sold. He further emphasized the value of reliable standards in electrical construction and the use of standard materials in the houses being built. He believes that the present building situation offers a big opportunity for the electrical industry to consolidate its position and to insure adequate electrical service to its customers.

**California Photos**  
Win Praise of Art Thronghs In Paris

SAN FRANCISCO, July 5.—Enlarged photographs of scenes in California, framed in natural redwood, are creating a sensation in Paris, where they are being exhibited in the Legion of Honor building, according to a cablegram received here by Adolph B. Spreckels from his wife, Mrs. Alma de Bretteville Spreckels, who is in France.

The photographs, the property of William Sproule, president of the Southern Pacific company, depicts scenes in Yosemite, Southern and Northern California, Lake Tahoe, the California missions, and other beauty spots internationally known. Parisians, Mrs. Spreckels cabled, are anxious to learn all they can about the Golden State. A motion picture reel is being shown in connection with this exhibit, showing beauty scenes of California.

Mrs. Spreckels gave the Legion of Honor a complete set of medals of the presidents of the United States from Washington to Harding. These have been added to the other exhibits of the historic Legion of Honor building on the bank of the Seine, she cabled to the San Francisco capitalist.

### Speed Murder Trial Of 'Whipping Boss'

LAKE CITY, Fla., July 5.—Night sessions, ordered by the court in the trial of T. W. Higginbotham, convict boss, accused of having beaten Martin Talbert to death, have resulted in speeding up the case and it is expected to reach the jury Saturday.

## Federal Engineers Control Jetty Work

MARSHFIELD, Ore., July 5.—With government engineers in charge of the work, the three years jetty construction and improvement program on Coos bay here is underway.

When finished, the labor will assure southwestern Oregon a port of unusual excellence, and dockage facilities sufficient to handle the great lumber output and other products shipped from this section of the Northwest.

A tug, a number of barges and several carloads of machinery are here to be used in the work, which will keep a large crew of men busy steadily for the next three years.

## NEW VOLUMES ARE ADDED TO LIBRARY

With the announcement that the demand for good books continues to be heavy, despite the warmer weather, was the announcement that new volumes had been placed at the city library.

With the publishers' note of content appended, they follow:

"Beasts, Men and Gods," Ferdinand Ossendowski.—"A stirring book this. A man book. A book to be read at a sitting; a book for all lovers of the adventure and variety of life." Atlantic Monthly.

"A Tenderfoot in Colorado," R. B. Townsend.—"The true story of a pioneer, whose narrative dates back to 1859, when as a young man of 20, just out of Cambridge university, he confronted what was then in truth 'the wild west,' when buffaloes roamed the plains and Indians were a constant terror."

"Goat Alley," Ernest Howard Culbertson.—"A tragedy of negro life."

"The Maturity of James Whitcomb Riley,"—This completes that biography begun in the "Youth of James Whitcomb Riley," telling of his adventures as a journalist, on the lecture platform, the publication of his books and his friendships."—Booklist.

"From Seven to Seventy," Edward Simmons.—"Entertaining reminiscences of one of America's foremost mural painters, written in an easy, picturesque style, and abounding in anecdotes of literary and artistic celebrities."—Booklist.

"Through Spain and Portugal," E. C. Piaggio.—"While there are frequent historical anecdotes and some allusions to native manners and costumes, the chief interest is in the art and architecture of the countries visited."—Carnegie Library of Pittsburgh Monthly Bulletin.

"Norwegian Towns and People," Robert Medill.—"Few people realize the interest that lies in Norway's ancient cities and mountainous country. This book attempts to visualize, not only the fjords, but the cities of greatest interest."

"Principles of Social Psychology," J. M. Williams.—"A pioneer work which explains society concretely in psychological terms, but avoids the use of technical and scientific expressions."

"Tennyson, A Modern Portrait," Hugh L'Anson Fausset.—"The manner of the portrait is very attractive. Biography and criticism are artfully and suggestively blended, and the influence of Tennyson's environment throughout his life on the development of his character and his poetry is vividly and for the most part convincingly illuminated."—N. Y. Times.

"Having little sympathy with Tennyson, and only an occasional pleasure in his poetry, he fills three-quarters of his three hundred pages with cheap sneers, false innuendos, and wearisome depreciation."—The Times (London) Literary Supplement.

"Joys of the Road," A Little Anthology in Praise of Walking. Compiled by Waldo R. Brown.—"This book went out of print, but so much demand for it came from book-buyers to several bookstands that the Atlantic Monthly Press was persuaded to reprint it."

"Memories of My Life," Sarah Bernhardt.—"A wholly charming book, full of life and vim, written in a pleasing and readable manner. It gives one an entirely different view of Mme. Bernhardt."

"Through the Wheat," Thomas Boyd.—"It has remained to Thomas Boyd to write the least partisan and the most brilliant of doughboy reminiscences. Mr. Boyd has recorded, as nearly as he can recall it, and without grinding axes or proving a thesis, the physical and spiritual progress (or is it retrogression?) of a normal youth, an enlisted man in the marines, neither holler nor yell than the run of his comrades."—N. Y. Times.

"Barney," S. B. Hurst.—"An extraordinary double Odyssey, full of the life of the frontiers in the middle '90's, from gambling dens in Victoria, to the new opening wilderness. Passages of dramatic tension, sometimes of sheer brutality, and there is also tenderness and the flow of friendship throughout Barney's long struggle."—N. Y. Herald.

"Ironheart," Wm. M. Rainey.—"How a down-and-outer fights his way back to the captaincy of his soul."—N. Y. Times Book Review.

"World Outside," Harold MacGrath.—"Another mystery story from the pen of a skillful writer."—Boston Transcript.

"The Fascinating Stranger," Booth Tarkington.—"Their spontaneity is pleasant, they are written with Mr. Tarkington's customary ease, and some passages show his cleverness. But they do not add to his reputation and he would have been well advised to have let some of them remain untouched in their magazines."—Literary Review.

Figure this: The Register has more than 8,000 subscribers in Orange county, and for every subscriber there are four or five readers.

## CROWDED ROADS BRING PROFIT CLAIM

(Continued from Page 9)

hobgoblin visitation of Providence. It is never thought of as a mere imp conjured up by the improvidence of merchandisers who throw up the sponge the minute competition with city stores approaches the ring. Let them take heart, put on a new front, and develop powerful store attractions that will capitalize this growing tendency to buy at home.

Santa Ana merchants, generally, carry excellent stocks of merchandise. With confidence, with carefully laid plans for serving the buying public, with definite objectives, they may make decided improvements in business volume.

Ideas will catch public interest. Price attacks represent only a small part of a store's possibilities. The public will react more favorably, more quickly and more surely to ideas and figures than to mere figures. Constructive merchandising should be added at least to whatever price policy a store may pursue.

If proper organization and planning was ever vital to the successful Santa Ana merchant, how much more vital it is right now with the peril and delay of congested roads keeping our people more and more at home, yet with as many merchandising needs. This is the time to make hay.

### Woman Is Physician For Coast Guardsmen

WASHINGTON, July 5.—Dr. Blanche N. Epler, residing at Hatfield, N. C., has been appointed by the United States Public Health service as contract physician to furnish guard stations Nos. 181-185 inclusive.

Dr. Epler is engaged in private practice among the inhabitants of this somewhat isolated and exposed region. She will be prepared to respond at any time, day or night, to calls arising out of any serious accidents happening to coast guardsmen in the course of their arduous tasks. She will also conduct the visual and other physical examinations of applicants for admission to the coast guard service at the stations under her medical supervision.

Dr. Epler was chosen for the work after she had proved that she was fit to meet the requirements of the post and had been recommended for the duty by the local district superintendent of the coast guard.

## here's residential paradise, South Park HOMESITES Residents of Santa Ana! RIGHT NOW —is the time for action

Already the opportunity to buy a goodly number of these incomparable suburban homesites has passed—and the tract has not yet been on sale ONE WEEK. Do you realize that right at your southern door, five minutes from Fourth and Main streets this choice subdivision will soon be entirely sold out. With the exception of three lots out of the \$50,000 sold the opening day, outside investors came here, saw the developments, improvements going in, and bought heavily. The first buyers will reap the golden harvest.

You are rightly entitled to the first chance to make money on the new additions to your city. AWAKEN—buy at the opening prices and enjoy the later profits that rightly belong to Santa Ana-ns.

### South Park Homesites Have All City Conveniences —BUT no CITY TAXES

Cement sidewalks, rock and gravel streets, water mains, electricity, telephone, transportation facilities unexcelled—are all included in the purchase price of these lots. See the work going on, building on all sides, factories and proposed County Club just South of us, then Buy and BUILD later!

## CHAMPION RETAINS CROWN AT SHELBY

Gibbons Takes Bad Beating But Goes Full Route With Dempsey

BY HENRY L. FARRELL

(United Press Staff Correspondent) SHELBY, Mont., July 5.—Jack Dempsey has his heavyweight title and about \$25,000. Tommy Gibbons has no title and no more money than yesterday, but he has the heartfelt admiration of some 12,000 spectators who saw him stand up yesterday under the tiger-like rushes of the champion for the full 15 rounds. As for Shelby, Montana, sinking again into the oblivion of the northwestern plains, it has whatever fame there be in a niche in the sporting annals—and a cash deficit of something like \$150,000.

Dempsey won the decision on points. The only knockout of the latest world's heavyweight championship battle was to the grand old dope.

They said Gibbons couldn't stay—but he did.

With a puffed face, a split lip, sore ribs that glared an angry red, but covered a heart full of satisfaction, Tommy Gibbons of St. Paul came out of his fight with Jack Dempsey with whatever glory was won beneath the broiling sun that beat upon the big pine boulders yesterday afternoon.

Decision Satisfactory.

Gibbons lost the decision without a kick after some rather strange work on the part of Jim Daugherty, third man in the ring. But he had vindicated himself beyond a doubt as a rightful challenger for Dempsey's crown and established himself as a game sportsman.

"I held on a lot in the last three rounds, and don't blame me for it," Gibbons said. "I tried to fight absolutely clean and I believe I did. I felt fine until the ninth round, when I was hit in the groin and I couldn't use my left leg good after that."

Dempsey's form was decidedly disappointing, but he showed he could go 15 rounds and win.

Before the fight odds varied from 3 to 1 to 5 to 1 that Dempsey would win; some gave as high as

### In The Big Leagues

Walter Johnson, king of speed slab men, lasted an inning and a half against the Yanks yesterday when they gathered in both games of a double header with Washington, 12 to 6 and 12 to 2.

### SHELBY DREAM IS \$150,000 BUBBLE

Little Cow Town Wakes Up After Big Fight Minus Everything But Cows

SHELBY, Montana, July 5.—Shelby's folly!

It's a long story and the last chapter is still in doubt; but this is the gist of the plot:

A little cow town of the Montana type got ambitious. It stopped talking cows, dance halls, and girls, and started yelling for a bout for the heavyweight championship of the world in figures with six platters.

Jack Dempsey was obtained for \$300,000 and Tommy Gibbons for a percentage of the gate.

Today Jack Dempsey has about \$250,000 and Gibbons has nothing but the honors and a chance at some of the picture money, while everyone in Shelby who was interested in the affair is counting his percentage.

Just exactly how much was lost probably will never be known, because Shelby is proud, but the experts figure some more than \$150,000.

Rising up out of the mud to stand in headlines on the first pages of newspapers throughout the country for a few weeks, Shelby now is digging itself back into oblivion.

There is just one place where Shelby will be remembered a year from now and that is in the sporting records, which will recall the brilliant performance of Tommy Gibbons in a fight for the championship.

Otherwise, it will be just the same little cow town—with nearly everybody broke—marked with an "F" on the Great Northern time tables to signify trains will stop there if flagged.

TO HONOR GIBBONS

ST. PAUL, Minn., July 5.—St. Paul will have a Gibbons day on its municipal calendar.

The hero of Shelby's pine boards will be given the greatest reception anyone ever had when he reaches the Twin Cities, civic leaders and business men announced.

Captains Chosen

Sam Bowen and Charles Boster will head the two Huntington Beach groups. Sam Bowen picked a team at the luncheon, but the members were contested by his opponent, Mr. Boster. A flipped coin gave the decision to Sam Bowen, who will lead out for the Reds with the following captains: John Barlow, O. E. Megee, Ed Manning and Jack Whitney.

Charlie Boster will lead the Blues with Captain Ellison Conrad, J. A. Armitage, W. J. Cameron and Lynn Colburn.

The ways and means committee appointed to assist in the raising of fiances, consist of C. D. Patton, Lynn Colburn, W. J. Ellery, Jim Macklin and A. J. Thethic.

Headquarters have been established on Main street. The personal solicitation campaign will occupy from 9:30 o'clock to 12:30 o'clock Tuesday and Wednesday.

Luncheons will be held each noon to tabulate the results and increase the competitive spirit of the two teams.

ANAHEIM BOY HITS WELL

ANAHEIM, July 5.—"Vic" Ruedy, son of John Ruedy, who is playing center field on the Danville, Ill., team in the Three-I League, is batting an average of .350, according to his father. Danville is in sixth place among the eight teams, largely because of accidents to pitchers, one of whom had a leg broken. Last year young Ruedy led his mates on the Fort Smith, Ark., team in hits, runs and stolen bases. Ruedy played with Anaheim last winter.

POPULAR PAIR MARRY

ANAHEIM, July 5.—Anaheim friends of Miss Muriel Arkley and Mr. Leslie Abbott are receiving announcements of their wedding which occurred in Los Angeles. Both Mr. Abbott and his bride are Anaheim high school graduates. For the past several years they have been teaching school in Los Angeles after having graduated from University of Southern California. Mr. Abbott is the son of Mr. and Mrs. J. L. Abbott of Fullerton, formerly of Anaheim. Mrs. Abbott is the daughter of Mr. and Mrs. J. O. Arkley, prominent residents of Garden Grove.

NERVOUS WOMAN COMPLETE WRECK

Tells How She Was Made Well by Lydia E. Pinkham's Vegetable Compound

Indianapolis, Ind.—"Now I want to tell you just what induced me to take your medicine. It seemed that I had some kind of weakness so that I could not carry a child its full time. The last time I was troubled this way I had a nervous breakdown and was a complete wreck. The doctor thought I would not live, and if I did that I would never be well and strong again. But I told them I was going to get well, that I was not going to die just then. My husband got me Lydia E. Pinkham's Vegetable Compound and I took six bottles of it. I soon got strong again and had three more children. I have recommended the Vegetable Compound ever since, and if you could see me now you would think I had always been well!"—Mrs. MARY F. HERRICK, 224 Detroit St., Indianapolis, Ind.

## Legal Notice

**NOTICE OF AWARD**  
Pursuant to statute and to the Resolution of the Board of Trustees of the City of Santa Ana, directing this

Notice is hereby given that the Board of Trustees of the City of Santa Ana, in open session, at a regular meeting thereof held on the 2nd day of July, 1923, did open and examined and declared all sealed proposals or bids for doing the following work ordered in said City of Santa Ana:

In, on, and along a public street in said city commonly known as East Myrtle Street, and which portion thereof is described as that portion of East Myrtle Street which extends East from the East line of South Main Street to the West line of Pacific Electric Railway Company's 40 foot right of way, and from the East line of said 40 foot right of way to the West line of Halliday Street, and for the entire length of the described portion of East Myrtle Street from the curb line on the North to the curb line on the South, there and where any street or other intersects or terminates in the described portion of East Myrtle Street, then beyond the curb line and across the sidewalk reservation to the North and South property lines.

The use hereinabove in this Notice of the words or phrase "East Myrtle Street" is intended to mean, does mean and shall mean the said street as the construction of said street, or the paving of the described portion thereof by the construction on said said grade of five (5) inches of asphalt five (5) inches thick with belt finish wearing surface and complete to the official grade.

(b) The construction of cement curb on portions of said street where not already constructed as shown on plans approved by the Board of Trustees of the City of Santa Ana by Resolution No. 923 complete with the furnishing of all necessary equipment, labor and material on an estimate of 1408

(c) The regrading of said portion of East Myrtle Street to the official grade of five (5) inches of asphalt five (5) inches thick with belt finish wearing surface and complete to the official grade.

(d) The excavation of said trench approximately six (6) feet in depth and the laying of a trench of six (6) inch main sewer line as shown on the above described plans and more particularly described in Specification on file in the office of the City Clerk.

(e) The excavation of fifty-one (51) lateral house connection sewer lines approximately six (6) feet in depth and the laying of each separate lot, piece or parcel of land fronting on the above described street to and inside of the curb extending up the North and South sides thereof, and the laying in each of said lateral house connection sewer constructed of four (4) inch inside diameter vitrified salt glazed cylindrical sewer pipe connecting with the main sewer pipe line and extending from said main sewer pipe line to the inside of said curb; and the backfilling and settling of each said sewer trenches to true and solid surface on the sub-grade.

(f) The excavation for and the construction of four (4) concrete manholes as shown on plans above referred to, complete with the furnishing of all necessary equipment, labor and material.

(g) The excavation for and the construction of one (1) concrete flush tank as shown on plans and specifications above referred to, complete with the furnishing of all necessary equipment, labor and materials as more fully set forth in the plans and specifications on file in the office of the City Clerk of said city.

All of said work shall be done in accordance with the plans and specifications adopted thereon by the Board of Trustees of the City of Santa Ana, by Resolution No. 926 on the 13th day of February, 1923, for said work.

The contemplated work and improvement on East Myrtle Street is, in the opinion of the Board of Trustees of the City of Santa Ana, of more than local or ordinary public benefit and the Board of Trustees of the City of Santa Ana hereby makes the expenses of such work and improvement chargeable on a district, which district said Board of Trustees has designated to the district benefited by said work and improvement and to be assessed to pay the cost and expenses thereof, and which said district is bounded and described as follows:

Located in the City of Santa Ana, County of Orange, State of California, and beginning at the point of intersection of the center line of East Myrtle Street with the West line of Halliday Street; thence Southerly along the West line of Halliday Street a distance of 171.26 feet to the South end of Block 1, Tract No. 24, according to map recorded in Miscellaneous Map Book 15, page 2, Records of Orange County, California; thence Westerly along the South line of said Block 6, a distance of 150 feet, produced Westerly to an intersection with the center line of Hickory Street; thence Southerly along the center line of Hickory Street a distance of 74 feet to a point 180 feet Southerly from the point of intersection of the center line of Hickory Street with the center line of East Myrtle Street; thence Westerly parallel to the center line of East Myrtle Street to an intersection with the center line of Orange Avenue, a distance of 25.22 feet to a point 180 feet Northerly from the West line of Halliday Street; thence Southerly along the West line of Halliday Street, a distance of 180 feet to the point of beginning.

Notice is hereby given that serial bonds to represent unpaid assessments and bear interest at the rate of six (6%) per cent per annum will be issued hereunder in the manner provided in the Improvement Bond Act of 1915, the last in which nine (9) years from the second day of July, next succeeding nine (9) months from the date of issue.

All the said work to be done according to the specifications posted and on file and heretofore adopted for doing said work.

Reserve is hereby made to Resolution of Intention No. 1009 of said City wherein the Board of Trustees thereof declared its intention to order said work to be done for further particular which Resolution is on file in the office of the Clerk of the City of Santa Ana.

On the 2nd day of July, 1923, the Board of Trustees of the City of Santa Ana awarded the contract for said work to the lowest regular responsible bidder, to-wit, Weller and Bresser, at the price named in their proposal or bid on file as follows:

Item 1. The regrading to a sub-grade and the laying of five (5) inches asphalt pavement with belt finish wearing surface complete with the furnishing of all necessary equipment, labor and material on an estimate of 75,755 square feet for the sum of \$10,215 per square foot.

Item 2. The construction of concrete curb complete with the furnishing of all necessary equipment, labor and material on an estimate of 1408

## Legal Notice

Linear feet for the sum of Fifty cents (\$0.50) per linear foot.

Item 3. The trenching, furnishing and laying of six (6) inch main sewer pipe in accordance with plans and specifications complete with the furnishing of all necessary equipment, labor and material on an estimate of 1502 linear feet for the sum of Sixty cents (\$0.60) per linear foot.

Item 4. The trenching, furnishing and laying of fifty-one (51) lateral house connection sewer from the main sewer to and inside of the curb line complete with the furnishing of all necessary equipment, labor and material for the sum of Fifty cents (\$0.50) per linear foot.

Item 5. The excavation for and the construction of four (4) manholes as shown on plans complete with the furnishing of all necessary equipment, labor and material for the sum of Ninety (\$90.00) Dollars each.

Item 6. The excavation for and the construction of one (1) flush tank and the furnishing of all necessary equipment, labor and material for the sum of One Hundred Ten (\$110.00) Dollars each.

Item 7. The construction of cement sidewalk complete with the furnishing of all necessary equipment, labor and material on an estimate of Sixteen cents (\$0.16) per square foot.

Dated June 22, 1923.

J. M. BACKS, County Clerk.

**NOTICE OF SALE OF REAL ESTATE AT PRIVATE SALE**

In the Superior Court of the State of California, In and for the County of Orange.

In the Matter of the Estate of Nathan Philbrook, deceased.

NOTICE IS HEREBY GIVEN that the undersigned, E. L. Vincent, as Executor of the Estate of Nathan Philbrook, deceased, will sell at private sale to the highest bidder, upon the terms and conditions hereinafter mentioned, the real property in the County of Orange, State of California, the following described real estate, situated in the County of Orange, State of California, viz:

Lots 8, 28, 30, 32, and 24 in Block "B", Lots 28, 30, 32, and 24 in Block "D", in Roger's Addition to Laguna Beach, as shown on a map recorded in Book 31, pages 51 and 52 of Miscellaneous Map Book of Los Angeles County, California.

Lots 2, 4, 6, 7, 8, 9, 12, 13, 14, 15, 16, 17, 18 and 19 in Tract No. 84 as shown on a map recorded in Book 10, page 57 of Miscellaneous Map Book 10, Lots 5, 6, 7, 8, and 9, in Tract No. 85, as shown on map recorded in Book 10, page 57 of Miscellaneous Map Book 10, Lots 5, 6, 7, 8, and 9, in Tract No. 85, as shown on a map recorded in Book 10, page 57 of Miscellaneous Map Book 10, Lots 46, 47 and 48, Block "A" in Roger's Addition to Laguna Beach, as shown on a map recorded in Book 31, pages 51 and 52 of Miscellaneous Records of Los Angeles County, California, excepting therefrom that portion of the same occupied by a line established by the Isthmus Company and Joseph Yoch, by deed recorded in Book 95, page 338 of Deeds, records of Orange County, California.

These bonds bear interest at 6% per annum, payable on the 2nd day of January and July of each year; the payment and interest to be paid on the 2nd day of July, 1923, and will be paid on the interest at above rate from the 19th day of June, 1923. These bonds are issued pursuant to the Improvement Bond Act of 1915.

If no satisfactory bids are received or the Board of Trustees determine that the bids received are not satisfactory to the Board, the Board reserves the right to reject all bids received, and, or, and readvertise the bonds for sale or deliver said bonds to the contractor or engineer, or to the architect or engineer, or to the person or persons to whom the sum due upon the assessment and warrant. No bond will be sold for less than its par value. Bids will be received up to the hour of 7:30 o'clock A.M. on the 2nd day of July, 1923, at the city hall, and may be received by the Clerk up to that hour.

Dated July 5th, 1923.

E. L. VEGELY,  
Clerk of the City of Santa Ana.

**NOTICE OF PURCHASE OF SCHOOL BUS**

On July 9th, at 7:30 A. M. at the Trust Grammar School Building, in Tustin, California, the Trustees of Trust Grammar School will receive bids on the following equipment.

One Red Speedometer Bus, 16 inches Wheelbase with heavy Rear Springs, 5% to 1 gear, reduction, 34% 4% inch truck cord tires in front with standard rims and 38% 4% inch Super Cord tires rear with heavy rear tires, also one extra heavy duty ring.

One Body for above chassis, which body shall be 15 feet 2 inches in length inside measurement in the clear and 7 feet 10 inches outside measurement in the clear; inside height shall be 5 feet 5 inches in the clear. The width of center and rear seats shall be 15 inches. The height of side seats shall be 15 inches.

The width of top of body rear seats shall not be less than 31 inches. Aisles between center and side seats shall be approximately 13 inches in width. Side Windows shall be 24 inches clear.

Bus to be equipped with two safety doors, one at right forward and another at center of rear of body—rear known as emergency door. Both doors to be operated by hand levers under control of driver.

DATED JUNE 21, 1923.

E. E. VINCENT,  
Executor of the Estate of Nathan Philbrook, deceased.

E. T. TAVER, Attorney for Executor

No. 14821  
**NOTICE TO CREDITORS**

Estate of Albert Patton, Deceased. Notice is hereby given by the undersigned, executors of the estate of Albert Patton, deceased, of all persons having claims against the said deceased to file them with the necessary vouchers in the office of the Clerk of the Superior Court of California, or to exhibit the same with the necessary vouchers to the said executors at their place of business, or at office of S. M. Davis, Trust & Savings Bank Building, in the City of Santa Ana, in the County of Orange, within ten months from the first publication of this notice.

The sale of said Lot 8, in Block "B", Roger's Addition above mentioned will be made subject to a lien on the same, as of October 1st, 1923, and the sale of Lot 85, in Block "B" of Roger's Addition, above mentioned, will be made subject to two leases thereon both of which expire October 1st, 1923.

Dated June 21, 1923.

SADIE B. PATTON,  
Executor of the Estate of Albert Patton, deceased.

S. M. DAVIS, 5 Orange Co. Savings Bank Bldg., Santa Ana, Cal., Attorney for Executrix.

L. E. LIPPINCOTT, Saxophone and Clarinet teacher. Phone 1489-J.

## Legal Notice

Absent: Supervisors—none.

In WITNESS WHEREOF, I have hereunto set my hand and affixed the seal of the Board of Supervisors of said Orange County, this 26th day of June, A. D. 1923.

(SEAL) J. M. BACKS.

No. 14822  
**NOTICE FOR PUBLICATION OF TIME OF PROVING WILL, ETC.**

In the Superior Court of the County of Orange, State of California.

At the instance of S. M. Davis, Attorney for the Estate of Nathan Philbrook, deceased.

Notice is hereby given that Friday, the 13th day of July, 1923, at 10 o'clock a. m. of said day, at the Court room of this Court, the Superior Court of the State of California, has been appointed as the time and place for hearing the application of S. M. Davis, Attorney for the Estate of Nathan Philbrook, deceased, to probate the will of the said deceased, to be admitted to probate, that Letters Testamentary may be issued thereto to S. M. Davis, at which time and place all persons interested therein may appear and contest the same.

Dated June 22, 1923.

J. M. BACKS, County Clerk.

**NOTICE FOR SALE OF REAL ESTATE AT PRIVATE SALE**

In the Superior Court of the State of California, In and for the County of Orange.

In the Matter of the Estate of Nathan Philbrook, deceased.

NOTICE IS HEREBY GIVEN that the undersigned, E. L. Vincent, as Executor of the Estate of Nathan Philbrook, deceased, will sell at private sale to the highest bidder, upon the terms and conditions hereinafter mentioned, the real property in the County of Orange, State of California, the following described real estate, situated in the County of Orange, State of California, viz:

Lots 8, 28, 30, 32, and 24 in Block "B", Lots 28, 30, 32, and 24 in Block "D", in Roger's Addition to Laguna Beach, as shown on a map recorded in Book 31, pages 51 and 52 of Miscellaneous Map Book of Los Angeles County, California.

Lots 5, 6, 7, 8, and 9, in Tract No. 85, as shown on map recorded in Book 10, page 57 of Miscellaneous Map Book 10, Lots 5, 6, 7, 8, and 9, in Tract No. 85, as shown on map recorded in Book 10, page 57 of Miscellaneous Map Book 10, Lots 46, 47 and 48, Block "A" in Roger's Addition to Laguna Beach, as shown on a map recorded in Book 31, pages 51 and 52 of Miscellaneous Records of Los Angeles County, California, excepting therefrom that portion of the same occupied by a line established by the Isthmus Company and Joseph Yoch, by deed recorded in Book 95, page 338 of Deeds, records of Orange County, California.

These bonds bear interest at 6% per annum, payable on the 2nd day of January and July of each year; the payment and interest to be paid on the 2nd day of July, 1923, and will be paid on the interest at above rate from the 19th day of June, 1923. These bonds are issued pursuant to the Improvement Bond Act of 1915.

If no satisfactory bids are received or the Board of Trustees determine that the bids received are not satisfactory to the Board, the Board reserves the right to reject all bids received, and, or, and readvertise the bonds for sale or deliver said bonds to the contractor or engineer, or to the architect or engineer, or to the person or persons to whom the sum due upon the assessment and warrant. No bond will be sold for less than its par value. Bids will be received up to the hour of 7:30 o'clock A.M. on the 2nd day of July, 1923, at the city hall, and may be received by the Clerk up to that hour.

Dated July 5th, 1923.

E. L. VEGELY,  
Clerk of the City of Santa Ana.

**NOTICE OF PURCHASE OF SCHOOL BUS**

On July 9th, at 7:30 A. M. at the Trust Grammar School Building, in Tustin, California, the Trustees of Trust Grammar School will receive bids on the following equipment.

One Red Speedometer Bus, 16 inches Wheelbase with heavy Rear Springs, 5% to 1 gear, reduction, 34% 4% inch truck cord tires in front with standard rims and 38% 4% inch Super Cord tires rear with heavy rear tires, also one extra heavy duty ring.

One Body for above chassis, which body shall be 15 feet 2 inches in length inside measurement in the clear and 7 feet 10 inches outside measurement in the clear; inside height shall be 5 feet 5 inches in the clear. Said body shall have one seat running lengthwise in each seat row, four seats in center of body and four rear seat extending across rear of body; also four seats in center of body, facing forward and the length of each seat shall be 36 inches.

The width of center and rear seats shall be 15 inches. The height of side seats shall be 15 inches.

The width of top of body rear seats shall not be less than 31 inches. Aisles between center and side seats shall be approximately 13 inches in width. Side Windows shall be 24 inches clear.

Bus to be equipped with two safety doors, one at right forward and another at center of rear of body—rear known as emergency door. Both doors to be operated by hand levers under control of driver.

DATED JUNE 21, 1923.

E. E. VINCENT,  
Executor of the Estate of Nathan Philbrook, deceased.

E. T. TAVER, Attorney for Executor

## A PUZZLE A DAY

A man had \$100. With it he purchased one hundred pears, paying \$10 each for turkeys, \$3 each for ducks and 50 cents apiece for chickens. How many of each did he buy?

Yesterday's answer:

When the five center circles are filled with the proper letters (as indicated in the star), the five complete words, "heat," "ball," "dear," "load," and "riot" are formed, the words being read as indicated by the arrows.

## A Good Excuse

—BY BLOSSER

## Legal Notice

at the cost and expense of said grantee, which cost by the acceptance of this franchise said grantee agrees to pay the demands.

Section 1. The grantee shall commence the construction of any pipe lines under the provisions of this franchise until it shall first have obtained the written consent of the Board of Supervisors so to do. Such permits shall be granted upon application of the grantee, which application shall state the following facts: the highway upon which it is proposed to construct or lay the said pipes, the length of pipe lines proposed to be constructed, laid upon the highway, the size and description of the pipe intended to be used in the construction of the pipe line and such other facts as the Board of Supervisors may require. On the first day of July and January of each year after the date of the granting of this franchise the grantee shall render a statement to the Board of Supervisors of the Orange showing in detail the permits issued by the Board of Supervisors to the grantee for the construction of pipe lines, for the construction of which under the terms of this franchise permits have been taken out during the preceding six months, and if the total length of pipe lines actually laid during said six months is less than that permitted under the permits issued, the statements shall in addition to the above show the total length of pipe line which has been taken out during the preceding six months, and under said permit, and in either event such statement shall accompany said report with the payment of One Dollar (\$1.00) per rod or major fraction thereof.

Section 14. The grantee hereof shall also file with the Board of Supervisors on or about the first day of January of each year during the life of this franchise, a map or detail of the franchise showing in detail the exact location and size of the franchise, and surface pipes installed on or about the franchise, if any, and the location of all such pipes, tunnels, or structures, which shall have been installed subsequent to the filing of the map or detail of the franchise.

Section 15. The grantee hereof shall also within thirty days after the granting of this franchise, file a map or detail of the franchise, a map or detail of the franchise showing in detail the exact location and size of the franchise, and surface pipes installed on or about the franchise, if any, and the location of all such pipes, tunnels, or structures, which shall have been installed subsequent to the filing of the map or detail of the franchise.

Section 16. The grantee hereof shall also within thirty days after the granting of this franchise, file a map or detail of the franchise showing in detail the exact location and size of the franchise, and surface pipes installed on or about the franchise, if any, and the location of all such pipes, tunnels, or structures, which shall have been installed subsequent to the filing of the map or detail of the franchise.

Section 17. The grantee hereof shall also within thirty days after the granting of this franchise, file a map or detail of the franchise showing in detail the exact location and size of the franchise, and surface pipes installed on or about the franchise, if any, and the location of all such pipes, tunnels, or structures, which shall have been installed subsequent to the filing of the map or detail of the franchise.

Section 18. The grantee hereof shall also within thirty days after the granting of this franchise, file a map or detail of the franchise showing in detail the exact location and size of the franchise, and surface pipes installed on or about the franchise, if any, and the location of all such pipes, tunnels, or structures, which shall have been installed subsequent to the filing of the map or detail of the franchise.

Section 19. The grantee hereof shall also within thirty days after the granting of this franchise, file a map or detail of the franchise showing in detail the exact location and size of the franchise, and surface pipes installed on or about the franchise, if any, and the location of all such pipes, tunnels, or structures, which shall have been installed subsequent to the filing of the map or detail of the franchise.

Section 20. The grantee hereof shall also within thirty days after the granting of this franchise, file a map or detail of the franchise showing in detail the exact location and size of the franchise, and surface pipes installed on or about the franchise, if any, and the location of all such pipes, tunnels, or structures, which shall have been installed subsequent to the filing of the map or detail of the franchise.

Section 21. The grantee hereof shall also within thirty days after the granting of this franchise, file a map or detail of the franchise showing in detail the exact location and size of the franchise, and surface pipes installed on or about the franchise, if any, and the location of all such pipes, tunnels, or structures, which shall have been installed subsequent to the filing of the map or detail of the franchise.

Section 22. The grantee hereof shall also within thirty days after the granting of this franchise, file a map or detail of the franchise showing in detail the exact location and size of the franchise, and surface pipes installed on or about the franchise, if any, and the location of all such pipes, tunnels, or structures, which shall have been installed subsequent to the filing of the map or detail of the franchise.

Section 23. The grantee hereof shall also within thirty days after the granting of this franchise, file a map or detail of the franchise showing in detail the exact location and size of the franchise, and surface pipes installed on or about the franchise, if any, and the location of all such pipes, tunnels, or structures, which shall have been installed subsequent to the filing of the map or detail of the franchise.

Section 24. The grantee hereof shall also within thirty days after the granting of this franchise, file a map or detail of the franchise showing in detail the exact location and size of the franchise, and surface pipes installed on or about the franchise, if any, and the location of all such pipes, tunnels, or structures, which shall have been installed subsequent to the filing of the map or detail of the franchise.

Section 25. The grantee hereof shall also within thirty days after the granting of this franchise, file a map or detail of the franchise showing in detail the exact location and size of the franchise, and surface pipes installed on or about the franchise, if any, and the location of all such pipes, tunnels, or structures, which shall have been installed subsequent to the filing of the map or detail of the franchise.

Section 26. The grantee hereof shall also within thirty days after the granting of this franchise, file a map or detail of the franchise showing in detail the exact location and size of the franchise, and surface pipes installed on or about the franchise, if any, and the location of all such pipes, tunnels, or structures, which shall have been installed subsequent to the filing of the map or detail of the franchise.

Section 27. The grantee hereof shall also within thirty days after the granting of this franchise, file a map or detail of the franchise showing in detail the exact location and size of the franchise, and surface pipes installed on or about the franchise, if any, and the location of all such pipes, tunnels, or structures, which shall have been installed subsequent to the filing of the map or detail of the franchise.

Section 28. The grantee hereof shall also within thirty days after the granting of this franchise, file a map or detail of the franchise showing in detail the exact location and size of the franchise, and surface pipes installed on or about the franchise, if any, and the location of all such pipes, tunnels, or structures, which shall have been installed subsequent to the filing of the map or detail of the franchise.

Section 29. The grantee hereof shall also within thirty days after the granting of this franchise, file a map or detail of the franchise showing in detail the exact location and size of the franchise, and surface pipes installed on or about the franchise, if any, and the location of all such pipes, tunnels, or structures, which shall have been installed subsequent to the filing of the map or detail of the franchise.

Section 30. The grantee hereof shall also within thirty days after the granting of this franchise, file a map or detail of the franchise showing in detail the exact location and size of the franchise, and surface pipes installed on or about the franchise, if any, and the location of all such pipes, tunnels, or structures, which shall have been installed subsequent to the filing of the map or detail of the franchise.

Section 31. The grantee hereof shall also within thirty days after the granting of this franchise, file a map or detail of the franchise showing in detail the exact location and size of the franchise, and surface pipes installed on or about the franchise, if any, and the location of all such pipes, tunnels, or structures, which shall have been installed subsequent to the filing of the map or detail of the franchise.

Section 32. The grantee hereof shall also within thirty days after the granting of this franchise, file a map or detail of the franchise showing in detail the exact location and size of the franchise, and surface pipes installed on or about the franchise, if any, and the location of all such pipes, tunnels, or structures, which shall have been installed subsequent to the filing of the map or detail of the franchise.

Section 33. The grantee hereof shall also within thirty days after the granting of this franchise, file a map or detail of the franchise showing in detail the exact location and size of the franchise, and surface pipes installed on or about the franchise, if any, and the location of all such pipes, tunnels, or structures, which shall have been installed subsequent to the filing of the map or detail of the franchise.

Section 34. The grantee hereof shall also within thirty days after the granting of this franchise, file a map or detail of the franchise showing in detail the exact location and size of the franchise, and surface pipes installed on or about the franchise, if any, and the location of all such pipes, tunnels, or structures, which shall have been installed subsequent to the filing of the map or detail of the franchise.

Section 35. The grantee hereof shall also within thirty days after the granting of this franchise, file a map or detail of the franchise showing in detail the exact location and size of the franchise, and surface pipes installed on or about the franchise, if any, and the location of all such pipes, tunnels, or structures, which shall have been installed subsequent to the filing of the map or detail of the franchise.

Section 36. The grantee hereof shall also within thirty days after the granting of this franchise, file a map or detail of the franchise showing in detail the exact location and size of the franchise, and surface pipes installed on or about the franchise, if any, and the location of all such pipes, tunnels, or structures, which shall have been installed subsequent to the filing of the map or detail of the franchise.

Section 37. The grantee hereof shall also within thirty days after the granting of this franchise, file a map or detail of the franchise showing in detail the exact location and size of the franchise, and surface pipes installed on or about the franchise, if any, and the location of all such pipes, tunnels, or structures, which shall have been installed subsequent to the filing of the map or detail of the franchise.

Section 38. The grantee hereof shall also within thirty days after the granting of this franchise, file a map or detail of the franchise showing in detail the exact location and size of the franchise, and surface pipes installed on or about the franchise, if any, and the location of all such pipes, tunnels, or structures, which shall have been installed subsequent to the filing of the map or detail of the franchise.

Section 39. The grantee hereof shall also within thirty days after the granting of this franchise, file a map or detail of the franchise showing in detail the exact location and size of the franchise, and surface pipes installed on or about the franchise, if any, and the location of all such pipes, tunnels, or structures, which shall have been installed subsequent to the filing

### EVENING SALUTATION

It is better to remain silent than to speak the truth ill-humoredly, and spoil an excellent dish by covering it with bad sauce.—St. Francis de Sales.

### SECRETS OF PREHISTORIC AGES

Recently there has been more or less exploitation of so-called petrified forests in the Santiago foothills. Los Angeles scientists have visited the places where the petrified tree trunks are found, and have been interviewed by Los Angeles newspaper reporters. A number of inaccuracies have been published, due, no doubt, to a lack of understanding of the terms used by the scientists.

That there is a highly interesting field for scientific exploration in the foothills northeast of Santa Ana has been known for two or three decades. Years ago, fossil fish unearthed at El Modena were declared by David Starr Jordan, then president of Stanford University, to be of species hitherto unknown to science.

On a number of hills fossil bones have been found. There is one hill about a mile south of the county park that is particularly prolific in furnishing fragments of petrified bone. Fossil shells are found in many places over the county.

Thus tradition.

And yet when the raisin growers of Fresno got in a jam, the man selected to pull them out of the hole (while these metaphors are mixed they are guaranteed fresh) was Ralph Merritt, a university man and for a number of years controller of the University of California. It is true that the controller was a business job, but it was a business job in a little academic world of itself. Merritt, as head of the raisin association, has accomplished re-financing and reorganization and is well launched on a program that is moving practically two years crops.

The Prune and Apricot Growers' organization also found itself in a difficult situation, and perhaps influenced by Merritt's success, the directors turned to another university man as a Moses. They offered the general management to Robert Sproul, who succeeded Merritt as controller of the University of California. Sproul, according to news dispatches of the last few days, has declined the offer.

The announcement comes, also, that Professor Ira B. Cross, also of U. C., has declined the position of national head of the American Institute of Banking at a salary of \$20,000 a year. The American Bankers' Association, composed of the country's ablest business men, offered the post to the University professor. Professor Cross' present salary is \$4500 a year, and it is stated that he prefers to continue in his present work, which he finds more congenial.

These instances illustrate the point that even practical men—farmers, business men and bankers—recognize that there is a theoretical side as well as a practical side to affairs. The men who combine practice with theory naturally become leaders. And in the higher positions, theory is often more important than practice. For theory means a knowledge of all experience; while practice is confined to one's own experience.

### Bathing In Sun Important

With the summer sun growing strong again, the bathing season returns. Not the water-bathing season, but the season of sun-bathing, which is far more important. The doctors are calling attention to it, more and more, under the fancy name of "heliotherapy" which is Greek for "sun-healing."

In all outdoor bathing, it is probably the sunlight that does most good to the bather. This is particularly true of the seashore, where the light is very strong. The tendency of sea bathers to loll around on the beach is right. They have an instinct for doing the best thing, whether they know it or not. Many a case of nervous exhaustion is relieved by a few hours of exposure to the sun, on the warm sand, with perhaps an occasional plunge into the water, to vary the monotony.

In Switzerland and Sweden the principle has been used in "treatment" without any water contact. Children suffering from tuberculosis are exposed, nearly naked, to the strong sunlight of mountains, which equals that of the seashore for purity and penetrating quality. And the cures obtained seem almost miraculous.

The sun, which smites, is nevertheless the great healer. He smites only those who fear him, or who face him too presumptuously, without due preparation. For the habitual dweller within doors sunshine is to be taken gradually, with the exposure increased as the skin darkens.

"Tanning" is nature's protection against the peril that lies in too large doses of this potent medicine. Yet the tan itself is healthful, and evidence of healing. A tanned skin is a healthy skin, and tells of healthy organs beneath. Well may a vacationer boast of his tan, for the darker the hue, the more good the sun has done him.

The pity of it is that so many people content themselves with merely acquiring a coat of tan, by short and strenuous exposure, and do not go ahead to enjoy the full benefit of habitual sun baths when they have become immune from sunburn.

### THE BIBLE REWRITTEN

Hendrik Van Loon, author of the popular "Story of Mankind", has now rewritten the Bible. He reduces its 1,250,000 words to 120,000 leaving out a vast amount of matter which he considers unessential, simplifying and modernizing the language and emphasizing the "human interest".

This, needless to say, is a more pretentious effort than was his boiling down of all human history into one volume. It is always perilous to take liberties with the Scriptures. Dr. Van Loon justifies himself by saying that he has written his version in order to induce people to read the Bible.

The King James version or the Douay version, he says, is good enough for him, and for other educated people, but the majority find it hard to understand and will not take the trouble to plow through it. He thinks he can give common folk, in his volume, the substance of the Bible, and perhaps persuade them to go on afterwards and read the longer, more formal version.

This may well be the case. It has been so with his "Story of Mankind", which has led thousands to a study of history, and which, though written for boys and girls, has made a remarkable appeal to grown-ups. But for the ordinary church member in Santa Ana or elsewhere, nothing can ever be a substitute for the Bible.

### THE FARMER'S SHARE

E. H. Cunningham, the new "dirt" farmer member of the Federal Reserve Board, has the floor, and he is worth hearing. He is talking to farmers, too. Says Mr. Cunningham:

"We are not going to have an influential farmer-labor combination in this country unless it comes through someone's carelessness. The laborer does not buy pork because he is especially friendly to the farmer, but because he is hungry for pork. The landowner can block any farmer-labor combine by giving

proper encouragement to his tenant and doing better by him than the farmer-labor crowd can do.

"I don't want my friends to expect that because I go to Washington as the representative of the farmers I go there to get for the farmers more than their share. The Federal Reserve Board must function for every individual in the country."

Mr. Cunningham was talking to the farmers when he pointed out the gulf which must always exist between them, as employers, and the labor agitators who are trying to organize a farmer-labor party, but the whole country is glad to hear his declaration that he hopes to maintain a national viewpoint.

It may not be particularly "good politics" on his part, but it is very sound political doctrine.

### Theory and Practice

Stockton Independent.

Of course, university men are impractical. Some are even literary fellers—the ultimate damnation from a hard-headed business point of view. Their absent-mindedness ranks with the mother-in-law and Henry Ford as a never-ending fund of material for the jokesmiths.

Thus tradition.

And yet when the raisin growers of Fresno got in a jam, the man selected to pull them out of the hole (while these metaphors are mixed they are guaranteed fresh) was Ralph Merritt, a university man and for a number of years controller of the University of California. It is true that the controller was a business job, but it was a business job in a little academic world of itself. Merritt, as head of the raisin association, has accomplished re-financing and reorganization and is well launched on a program that is moving practically two years crops.

The Prune and Apricot Growers' organization also found itself in a difficult situation, and perhaps influenced by Merritt's success, the directors turned to another university man as a Moses. They offered the general management to Robert Sproul, who succeeded Merritt as controller of the University of California. Sproul, according to news dispatches of the last few days, has declined the offer.

The announcement comes, also, that Professor Ira B. Cross, also of U. C., has declined the position of national head of the American Institute of Banking at a salary of \$20,000 a year. The American Bankers' Association, composed of the country's ablest business men, offered the post to the University professor. Professor Cross' present salary is \$4500 a year, and it is stated that he prefers to continue in his present work, which he finds more congenial.

These instances illustrate the point that even practical men—farmers, business men and bankers—recognize that there is a theoretical side as well as a practical side to affairs. "Tanning" is nature's protection against the peril that lies in too large doses of this potent medicine. Yet the tan itself is healthful, and evidence of healing. A tanned skin is a healthy skin, and tells of healthy organs beneath. Well may a vacationer boast of his tan, for the darker the hue, the more good the sun has done him.

The pity of it is that so many people content themselves with merely acquiring a coat of tan, by short and strenuous exposure, and do not go ahead to enjoy the full benefit of habitual sun baths when they have become immune from sunburn.

### Elements Kind to California

Riverside Press.

Californians who read in their daily papers the stories of storm, cyclone and heat waves have cause to send up little peans of thanksgiving that their lives are lived in pleasant places. Scarce a day passes but first page dispatches tell of torrid weather through the middle west, cyclones and tornadoes accompanied by thunder and lightning in the south and unseasonable weather of various sorts in Atlantic coast states.

Folks east of the Rocky Mountains have the same right to brag about their weather that Californians have to boast of their climate. It is the most varied and uncertain and unexpected weather of which the meteorological experts have knowledge. It runs the gamut of below zero temperature that kills fruit buds in spring to torrid heat that takes toll of scores of lives a couple of months later. It is the sort of weather than can produce a death-dealing tornado on ten minutes notice; that can with the appearance of a black cloud in the southwest guarantee thunder and lightning that sends the timid to the futile protection of featherbeds. It is the sort of weather that withholds rain when the corn crops wither in torrid heat and overflows rivers and floods lowlands just when crops are beginning to make their appearance. It is freakish and notional and altogether uncertain.

And opposed to these conditions is this Pacific coast segment of climatic paradise. For here the death-dealing tornado is unknown, and even in the reclaimed desert areas, such as the Coachella and Imperial valleys, where high summer temperatures are the rule, sun-strokes are almost unknown and the warm weather serves only to ripen crops ahead of all other sections of the United States. And in other sections of the state, where the summer temperature is modified and made delightful by ocean and mountain breezes summer is a delightful season. Winter with its snows and blizzards has no counterpart here; the blooming rose, the ripening orange and the greening fields are here winter's kind heritage.

The true Californians cannot of course understand why their friends and relatives consent to remain in regions where weather rather than climate is the rule. And the fact is that a host of them are coming to California and will continue to come in greater numbers in the days that are to be.

"We are not going to have an influential farmer-labor combination in this country unless it comes through someone's carelessness. The laborer does not buy pork because he is especially friendly to the farmer, but because he is hungry for pork. The landowner can block any farmer-labor combine by giving

### All Signs Fail in a Dry Season

### I Am Your Town

A Chamber of Commerce Bulletin

Make of me what you will, I shall reflect you as clearly as a mirror throws back a candle flame.

If I am pleasing to the stranger within my gates; if I am such a sight, as, having seen me, he will remember me all his days as a thing of beauty, the credit is yours.

Ambition and opportunity call some of my sons and daughters to high tasks and mighty privileges, to my great honor and to my good repute in far places, but it is not chiefly these who are my strength.

My strength is in those who remain, who are content with what I can offer them, and with what they can offer me.

It was the greatest of all Romans who said, "Better be first in a little Iberian village than be second in Rome."

I am more than wood and brick and stone, more even than flesh and blood—I am the composite soul of all who call me Home.

I am your town.

### Worth While Verse

#### THE MOUNTAIN STREAM

God pity him who finds no dream  
Of heaven beside a mountain stream.  
A stream that pours its crystal draught  
From dizzy heights, and fearing naught  
Battles its way thro' wilds and rock.  
A stream that brooks no bars nor lock.

A stream that fills earth's mother veins  
With pap for forests, flowers and grains.  
A stream that fits earth's desert places  
For homes of plenty for her races.  
A stream that trims its borders fair  
With lilies, moss and maiden' hair.

A stream down to whose gracious brink  
The wild deer comes and stoops to drink.  
A stream whose song of cheer and praise  
Unceasing fills life's nights and days.  
A stream that in its crystal deeps  
A balm for sin and sorrow keeps.

Far from its course life's battles rage  
For place and honor, power and wage,  
There where men's monuments arise.  
They cannot build beyond the skies—  
But here, beside the stream's clear pool,  
Life's pulse grows calm, her fever, cool.

Beside the singing stream man hears  
The whispered music of the spheres;  
His blind eyes see, his dumb lips praise,  
His Ebenezer there he'll raise,  
For clearly through the days and years,  
Jehovah, God to him appears.

God pity him who finds no dream  
Of heaven beside a mountain stream.

—Mrs. F. T. Porter, Santa Ana

### Tom Sims Says

The reason we don't take better care of our feet is because they are so far from our minds.

Any man can patch the leaks in his roof so they give no more trouble until it rains.

Everything has its use. You can carry fish bait in a derby.

Paddling your own canoe is fine, but you make more speed if you get something to push it.

Before letting your conscience be your guide be sure you have one.

Former premier of France says the earth doesn't turn. Guess Europe will blame this on America.

Price of Wales, they say, will wear ready-made clothes. We would hate to wear any not already made.

"Fly Around World"—a headline. Wish all the flies were.

Cheap matches are all right if you happen to strike a good one.

When you can't swat a fly, chase the little fellow until he laughs him self to death.

It must be nice to be a turtle, and throw your whole house in the river to cool it off.

Clothes are much easier to wash if sent to the laundry.

Window panes last longer if kept away from baseball grounds.

Loafing is a hard job. It takes so long to get enough of it done.

Paint will not scratch or peel off if kept in an air-tight can.

### IN THE LONG AGO

From the Register Files

JULY 5, 1909

Assessment rolls turned over to the board of supervisors by County Assessor W. M. Scott show an increase in the total of \$1,946,295. This does not include the railroad assessment, which will be made by the state.

Judgment will be given by Judge West in favor of Mrs. Jennie Clifton and against Hogatt Clifton, of Huntington Beach, with \$75 a month alimony.

Ten thousand people attended the big celebration at Huntington Beach yesterday, marking the opening of the P. E. line and the Fourth of July.

The three-day shoot on the Santa Ana Riffle range was completed. C. W. Hannah, Santa Ana, with 42 out of 50 had high score on the 200-yard range. J. L. McBride had the highest individual average for the three days.
